

# Appendix to 2025 State of the University Letter: Campus Climate as Reported by Undergraduate Students

Source:

Princeton Year End Assessment/Senior Survey

All Undergraduate Students Spring Term

Last update: January 23, 2025

Princeton University surveys its undergraduate students each spring to learn about their experiences at Princeton. These surveys – the Year End Assessment and companion Senior Survey – provide valuable information about the experience of Princeton’s students and inform University planning.

The results shown on the following slides come from surveys administered by the Office of Institutional Research from 2016 to 2024. Results from the 2020 survey, taken at the beginning of the Covid pandemic, are not comparable and are not included.

## Question:

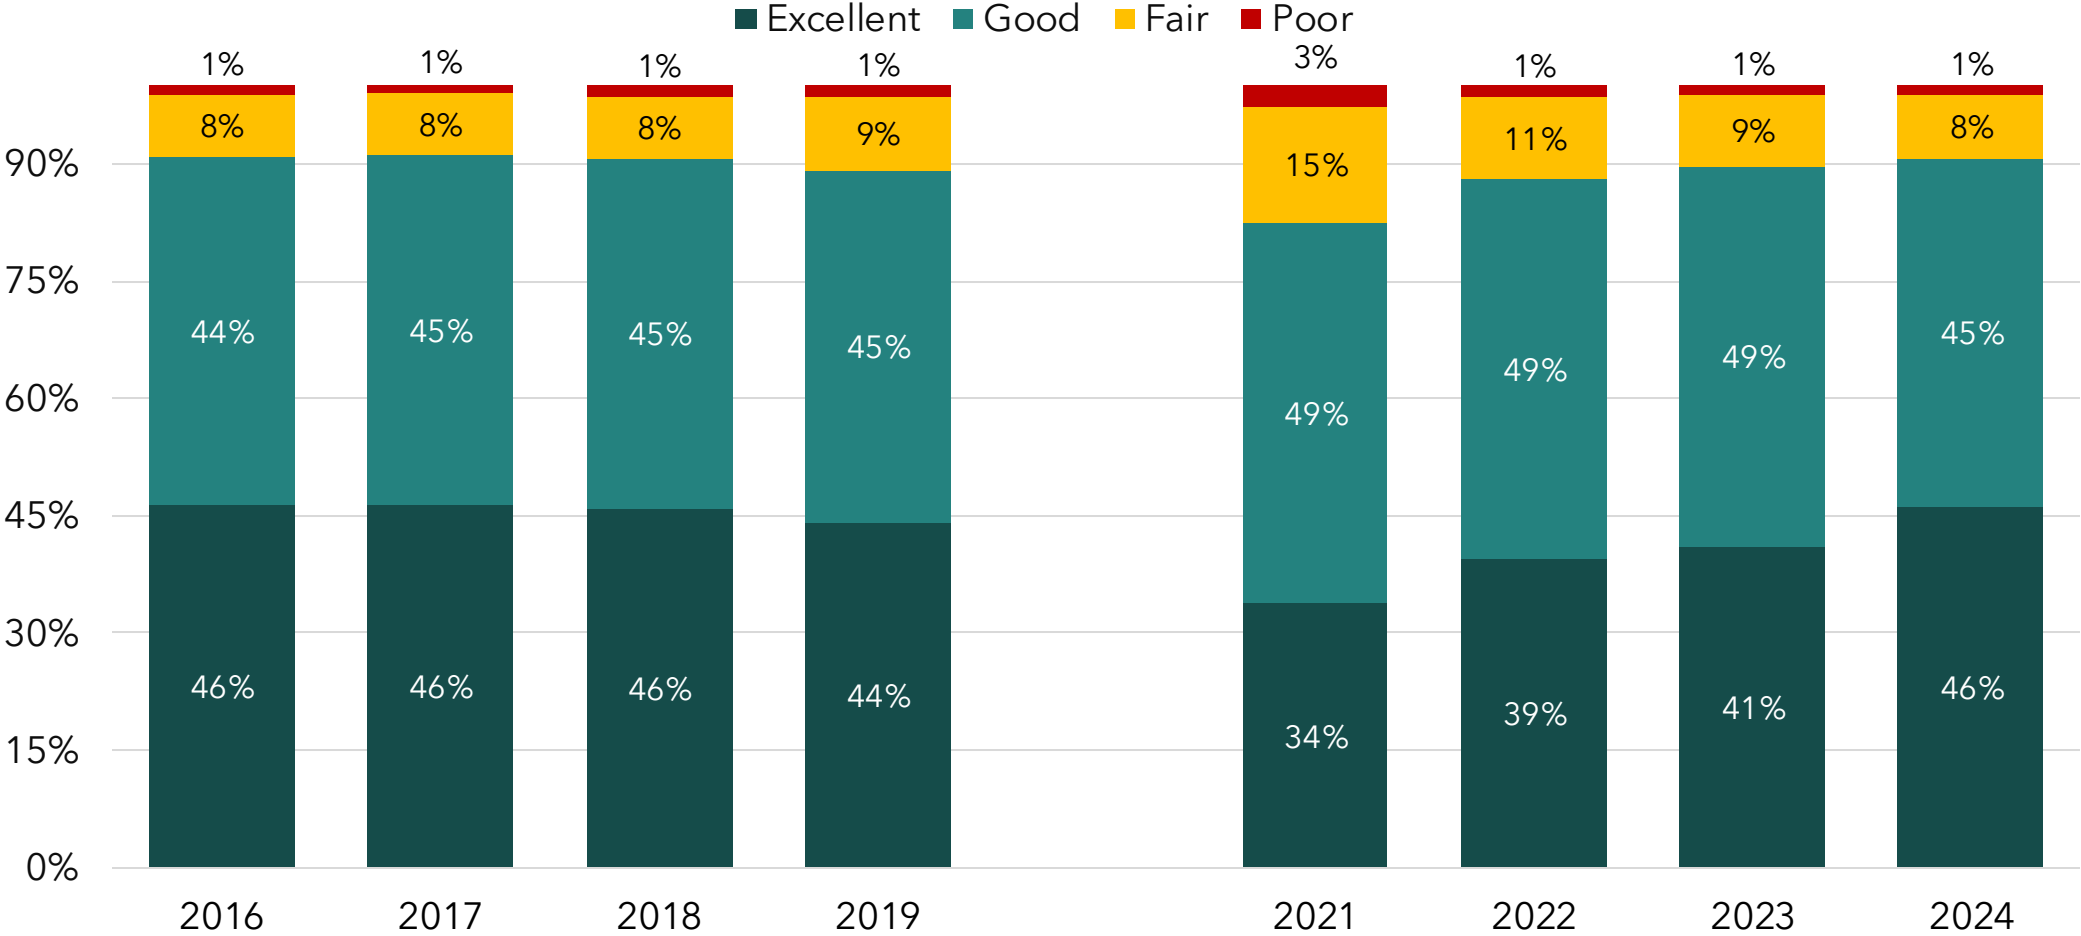

How would you evaluate your educational experience at Princeton University?

### Four-point Likert scale:

- Excellent: 4 points
- Good: 3 points
- Fair: 2 points
- Poor: 1 point

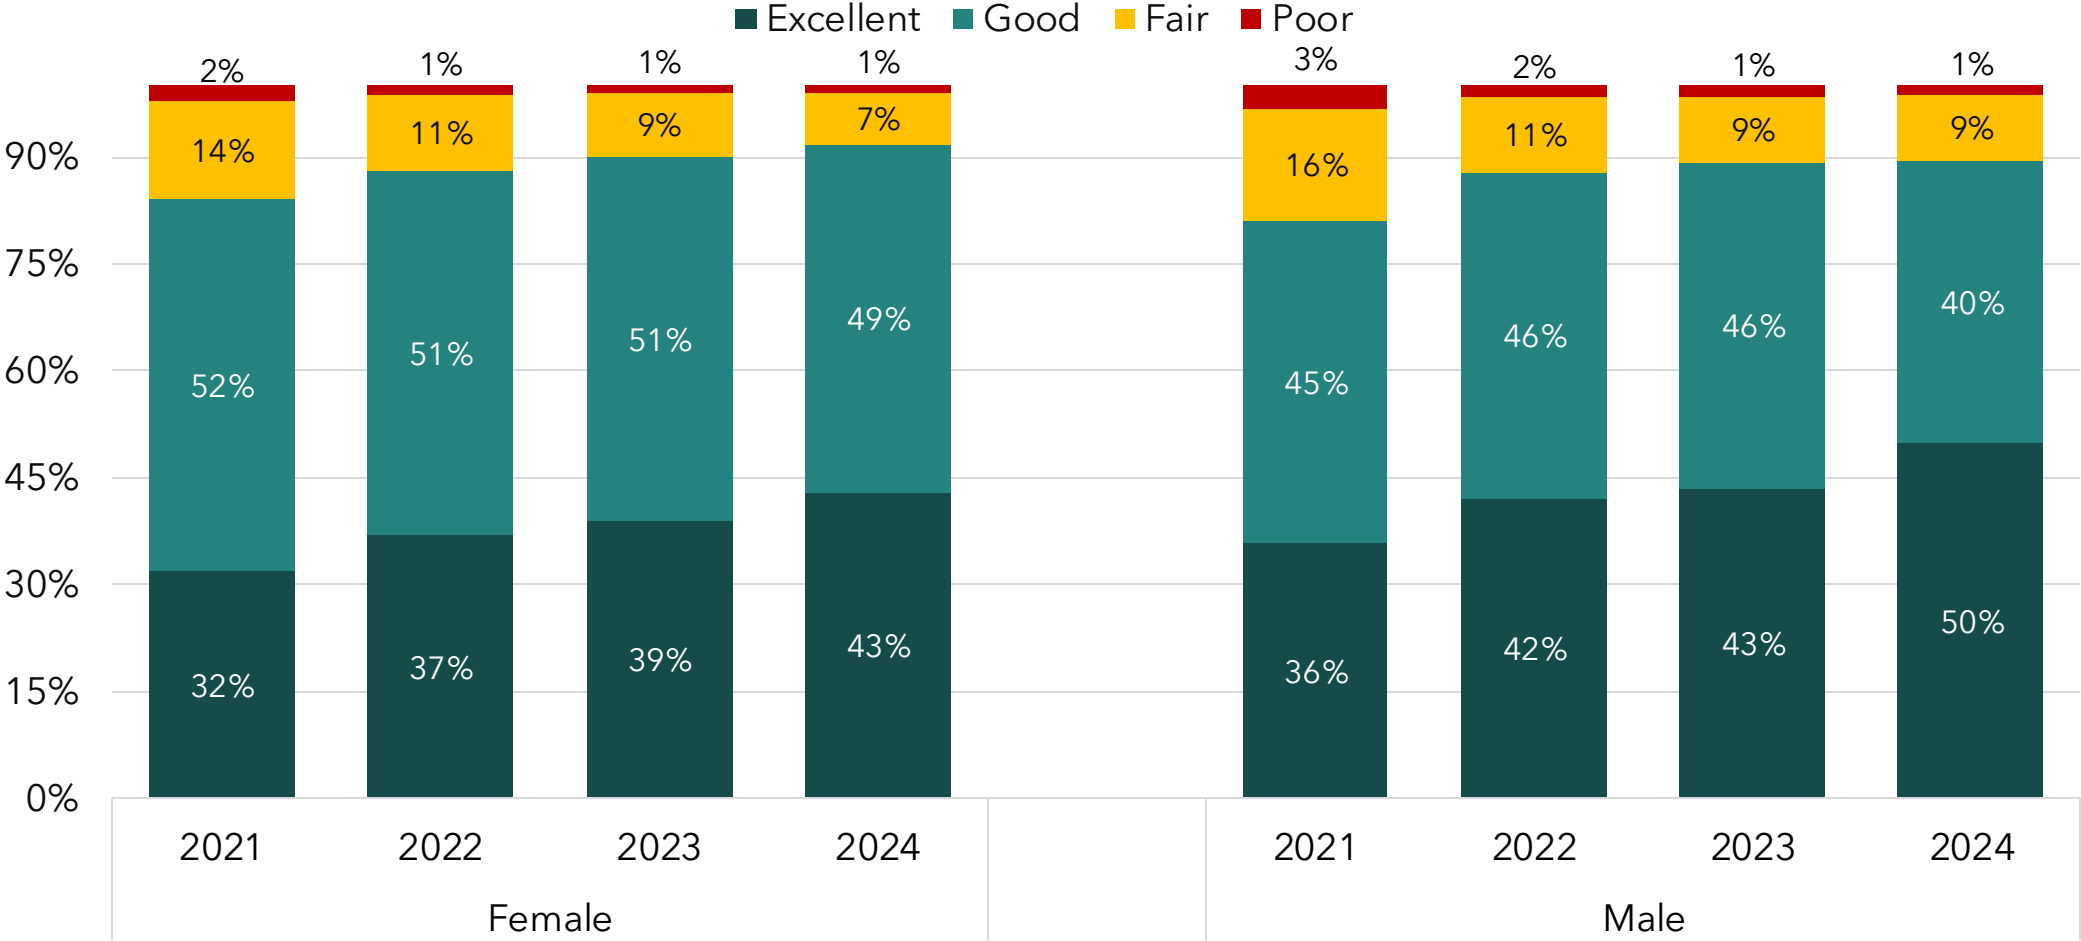

# How would you evaluate your educational experience at Princeton University?

All undergraduates, 2016 to 2024

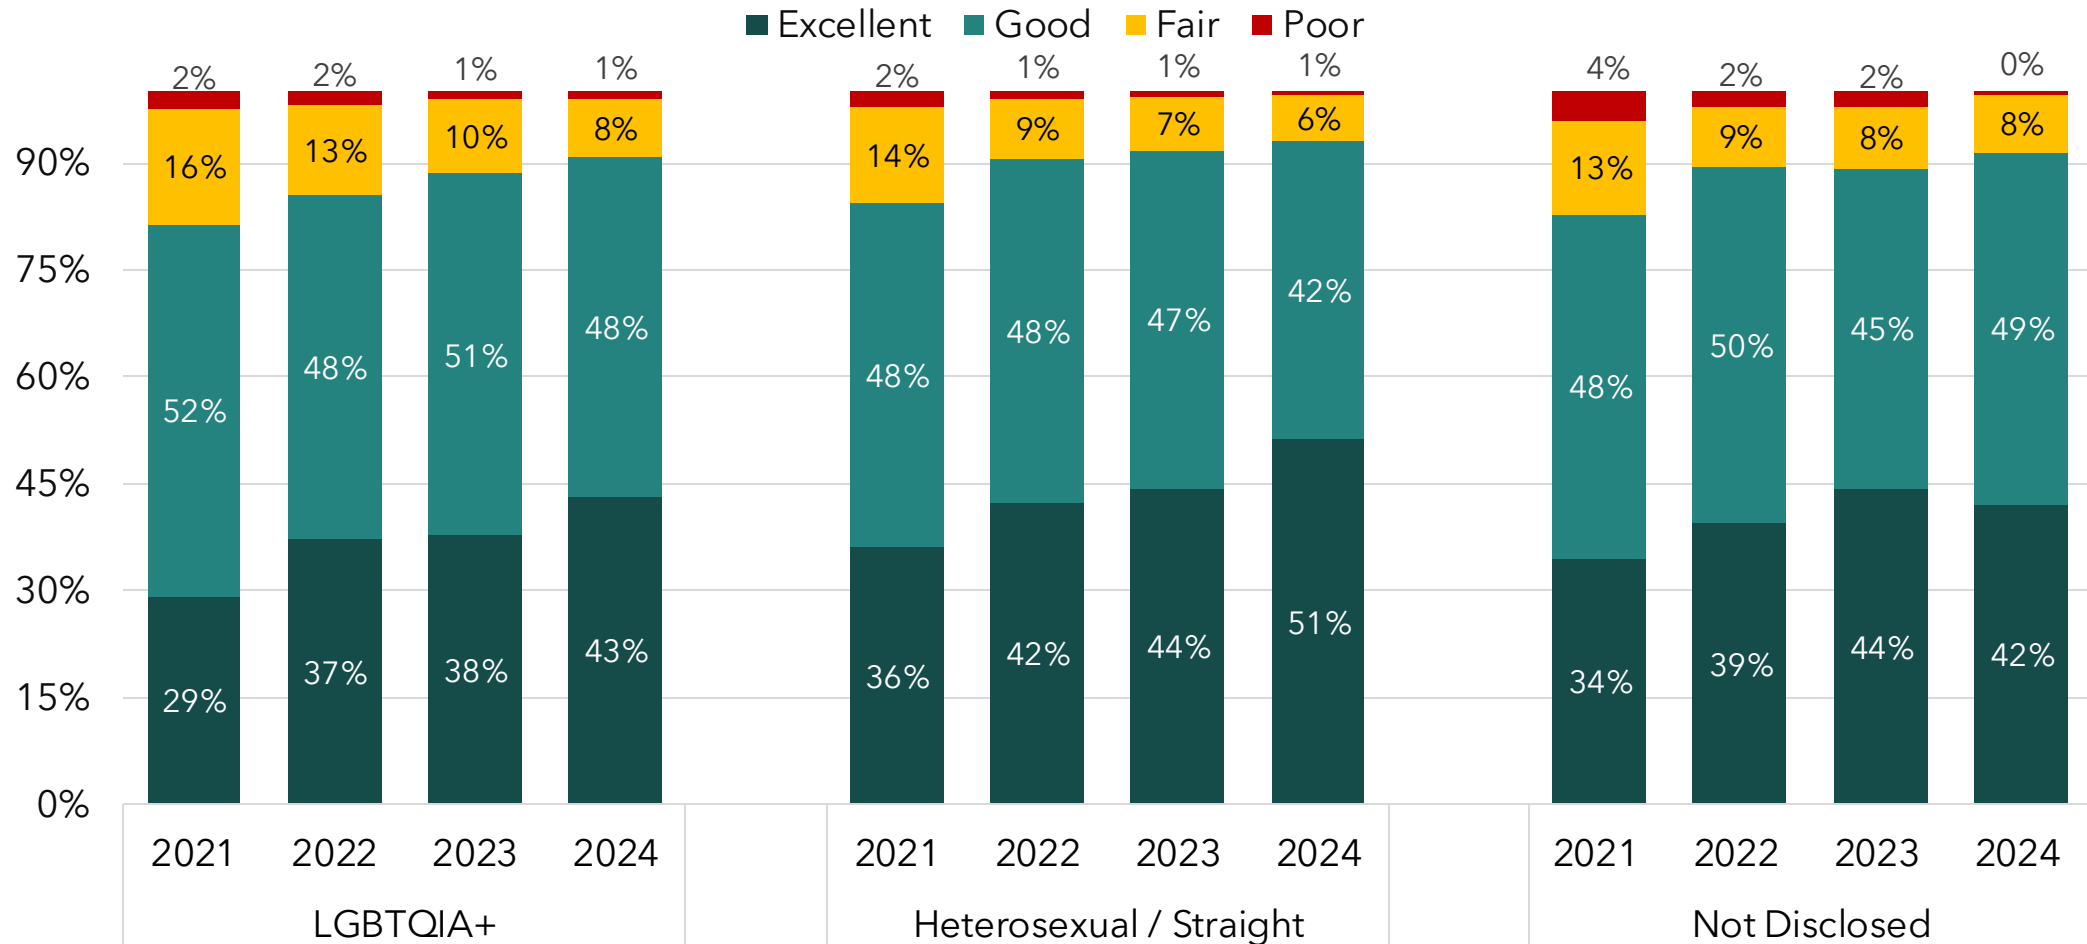

# How would you evaluate your educational experience at Princeton University?

By gender/sex, 2021 to 2024

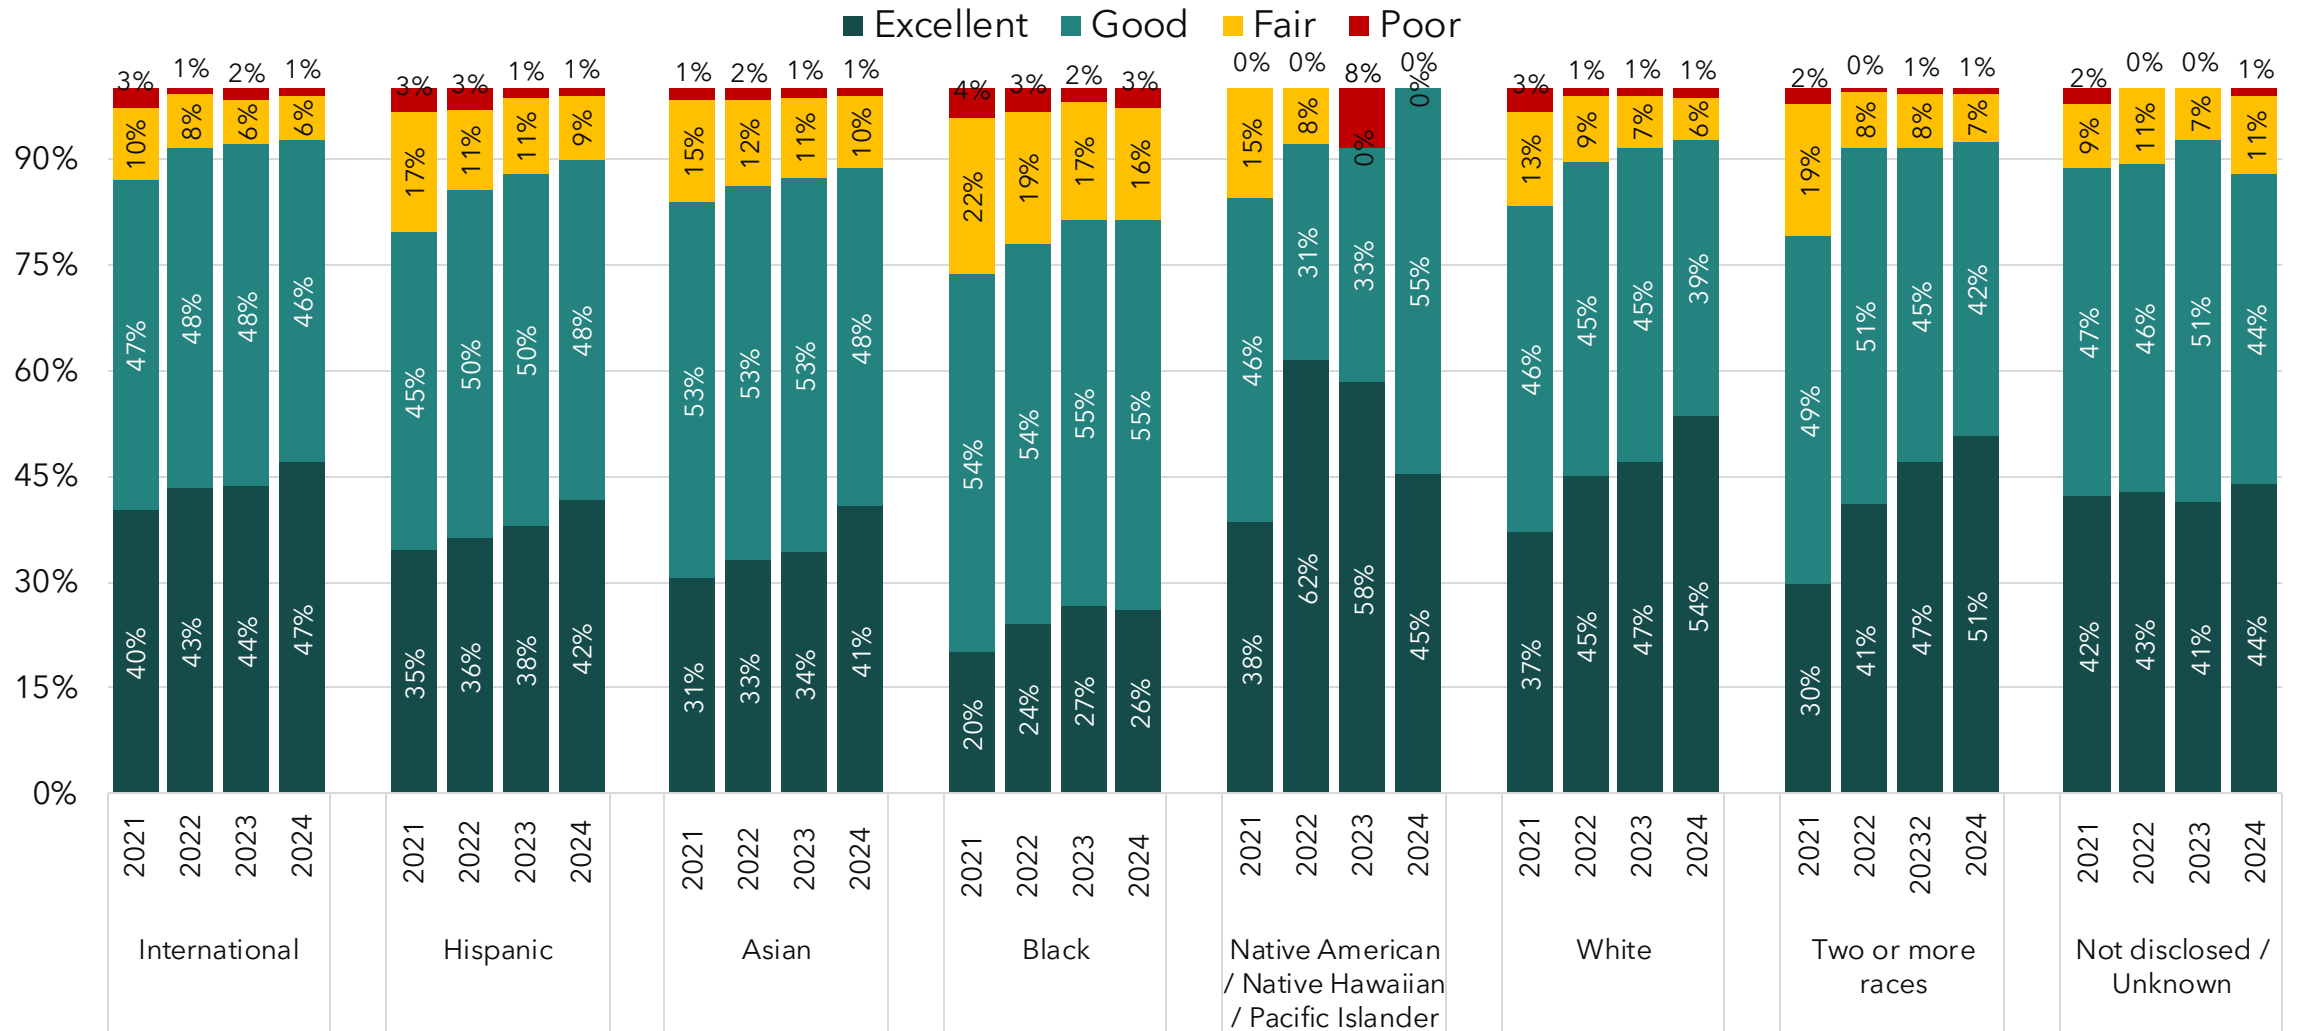

# How would you evaluate your educational experience at Princeton University?

By sexual orientation and gender identity, 2021 to 2024

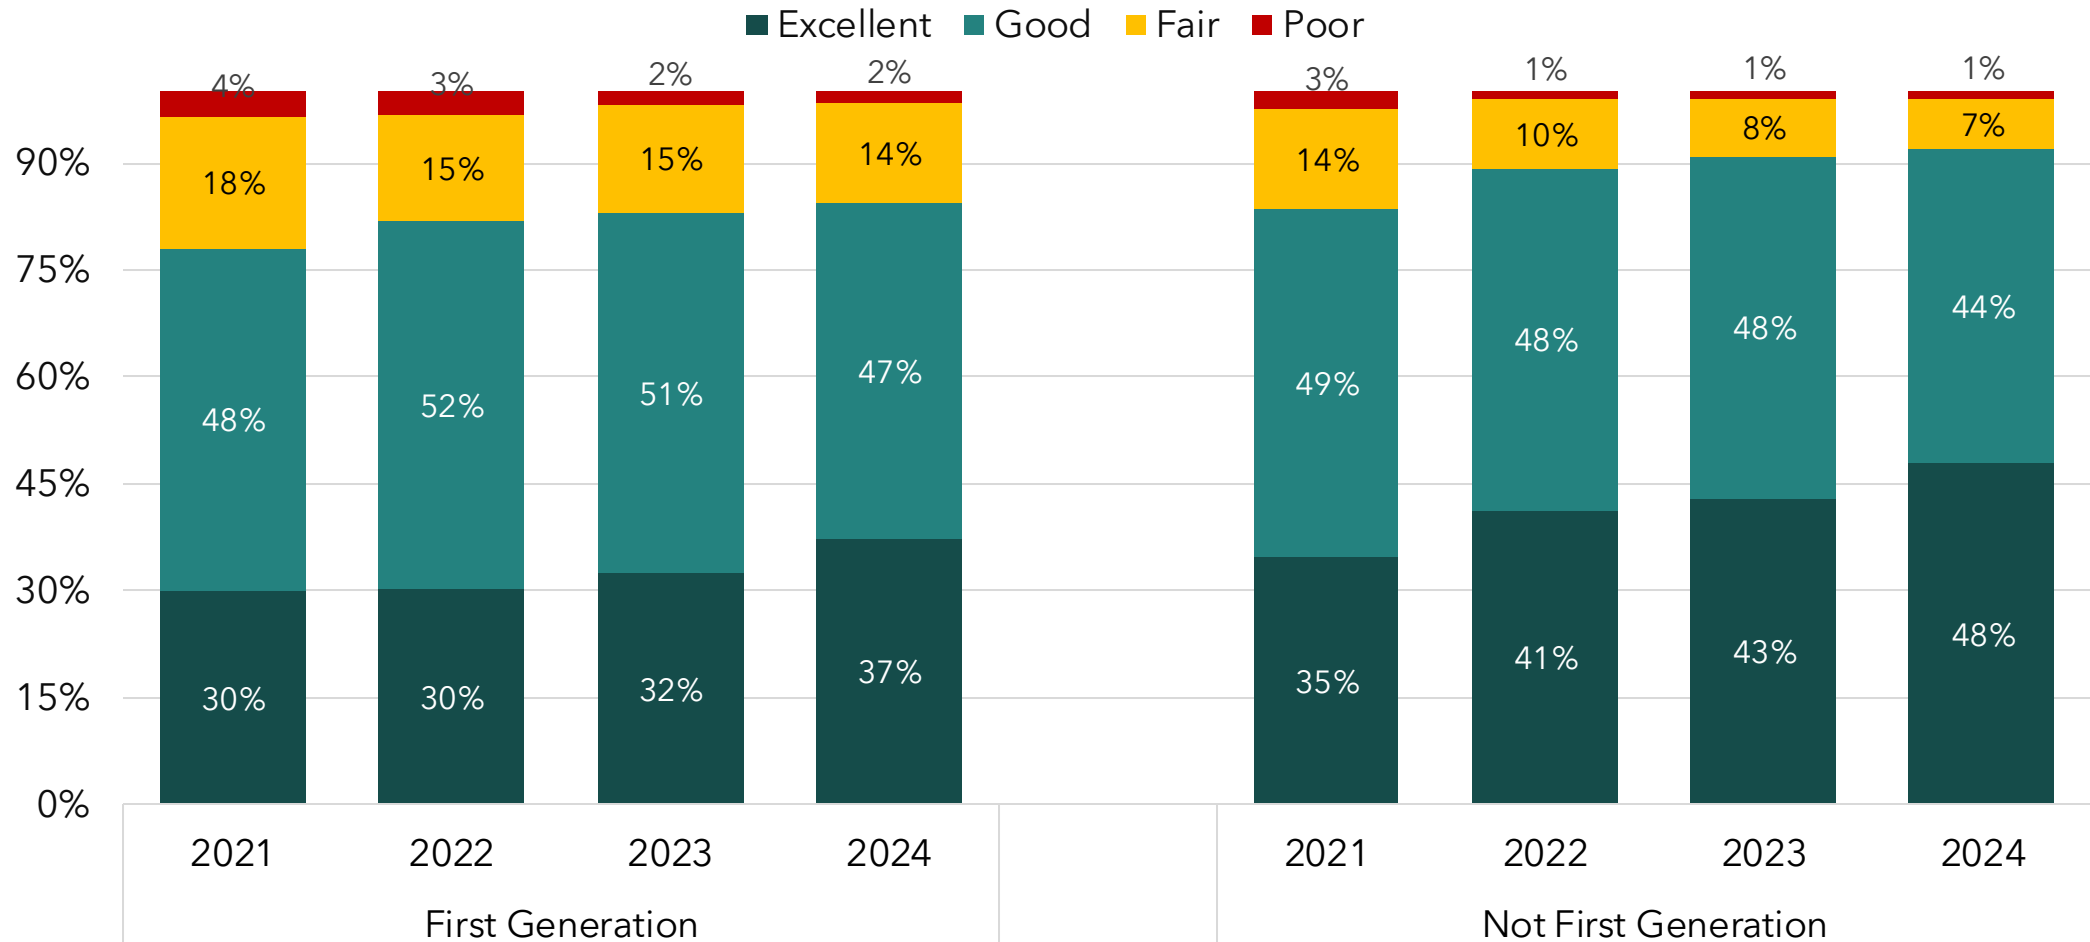

# How would you evaluate your educational experience at Princeton University?

By federal race/ethnicity, 2021 to 2024

# How would you evaluate your educational experience at Princeton University?

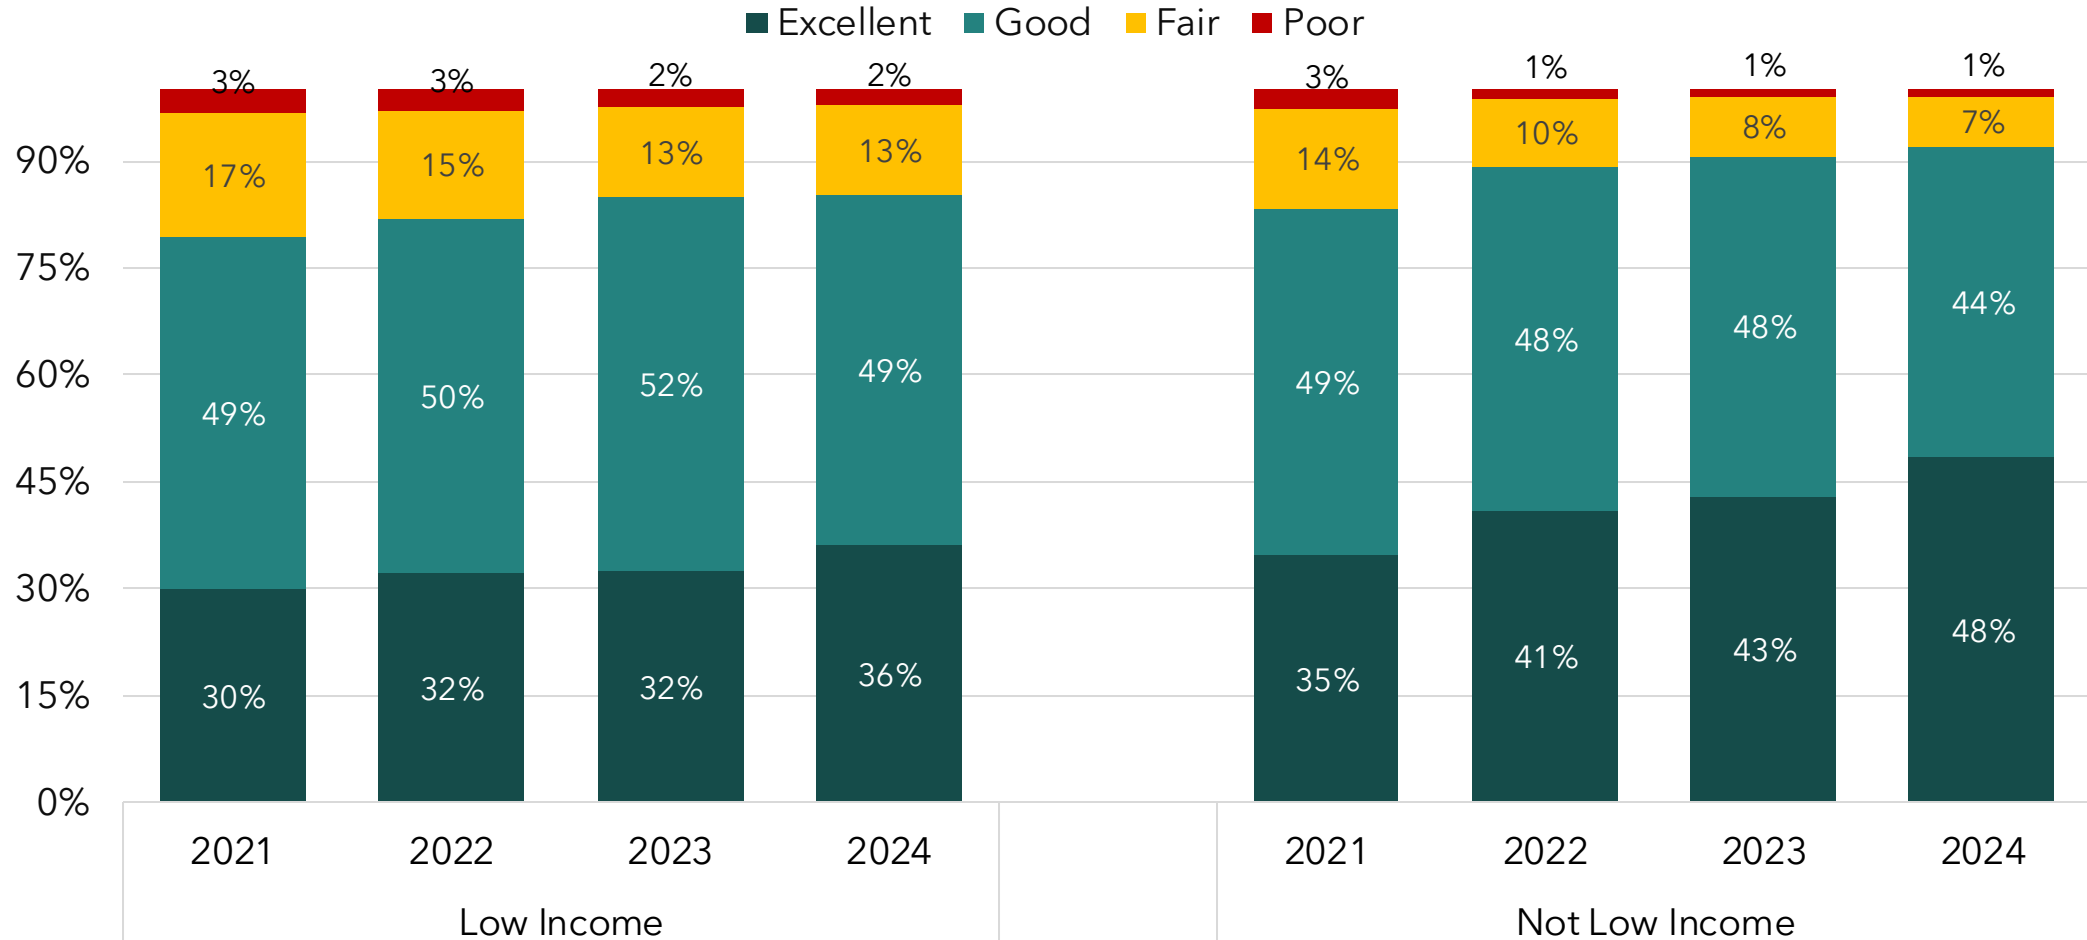

By first generation status, 2021 to 2024

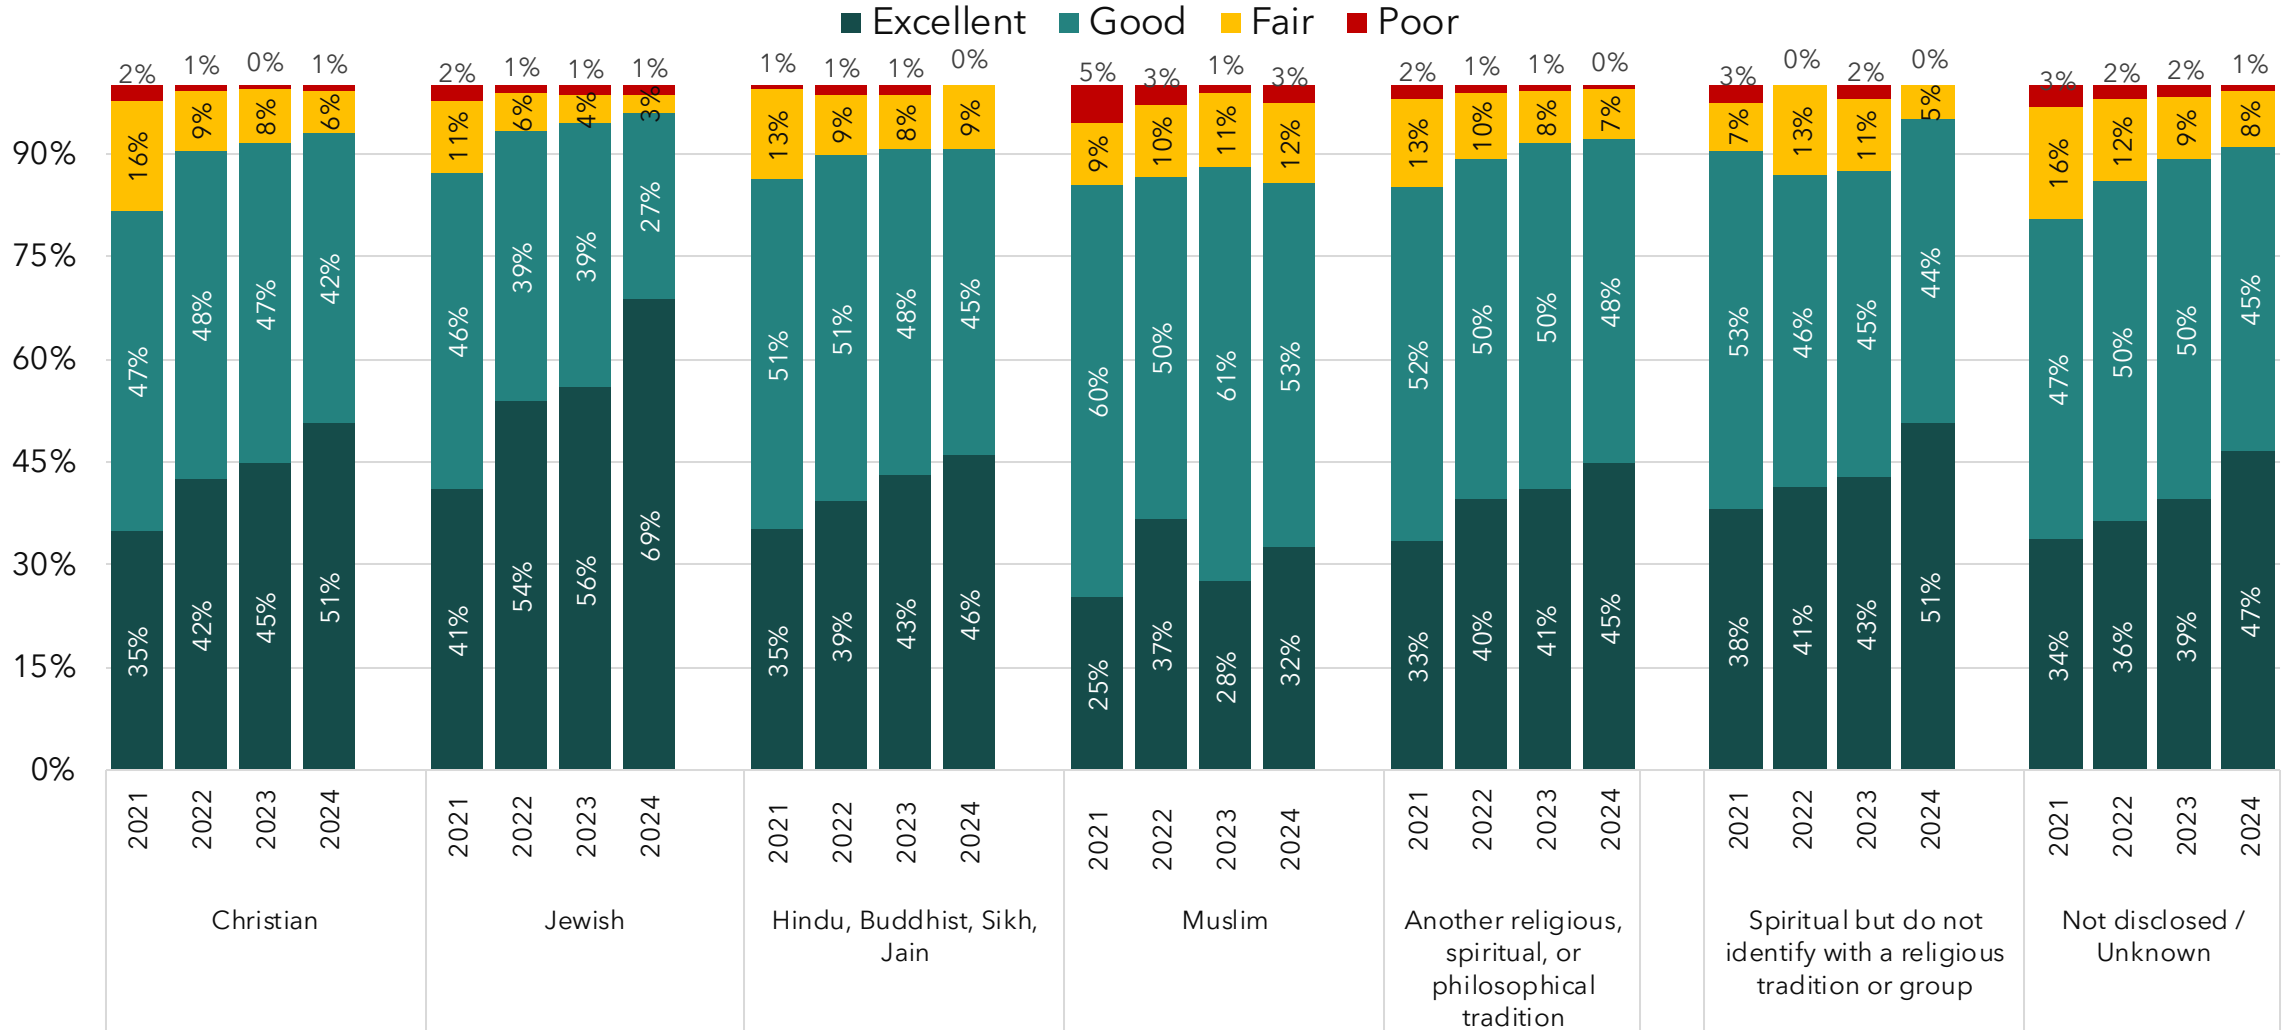

# How would you evaluate your educational experience at Princeton University?

By low income status, 2021 to 2024

# How would you evaluate your educational experience at Princeton?

By current faith-based identity or religious preference, 2021 to 2024

# How would you evaluate your educational experience at Princeton University?

By views on political issues, 2021 to 2024

## Question:

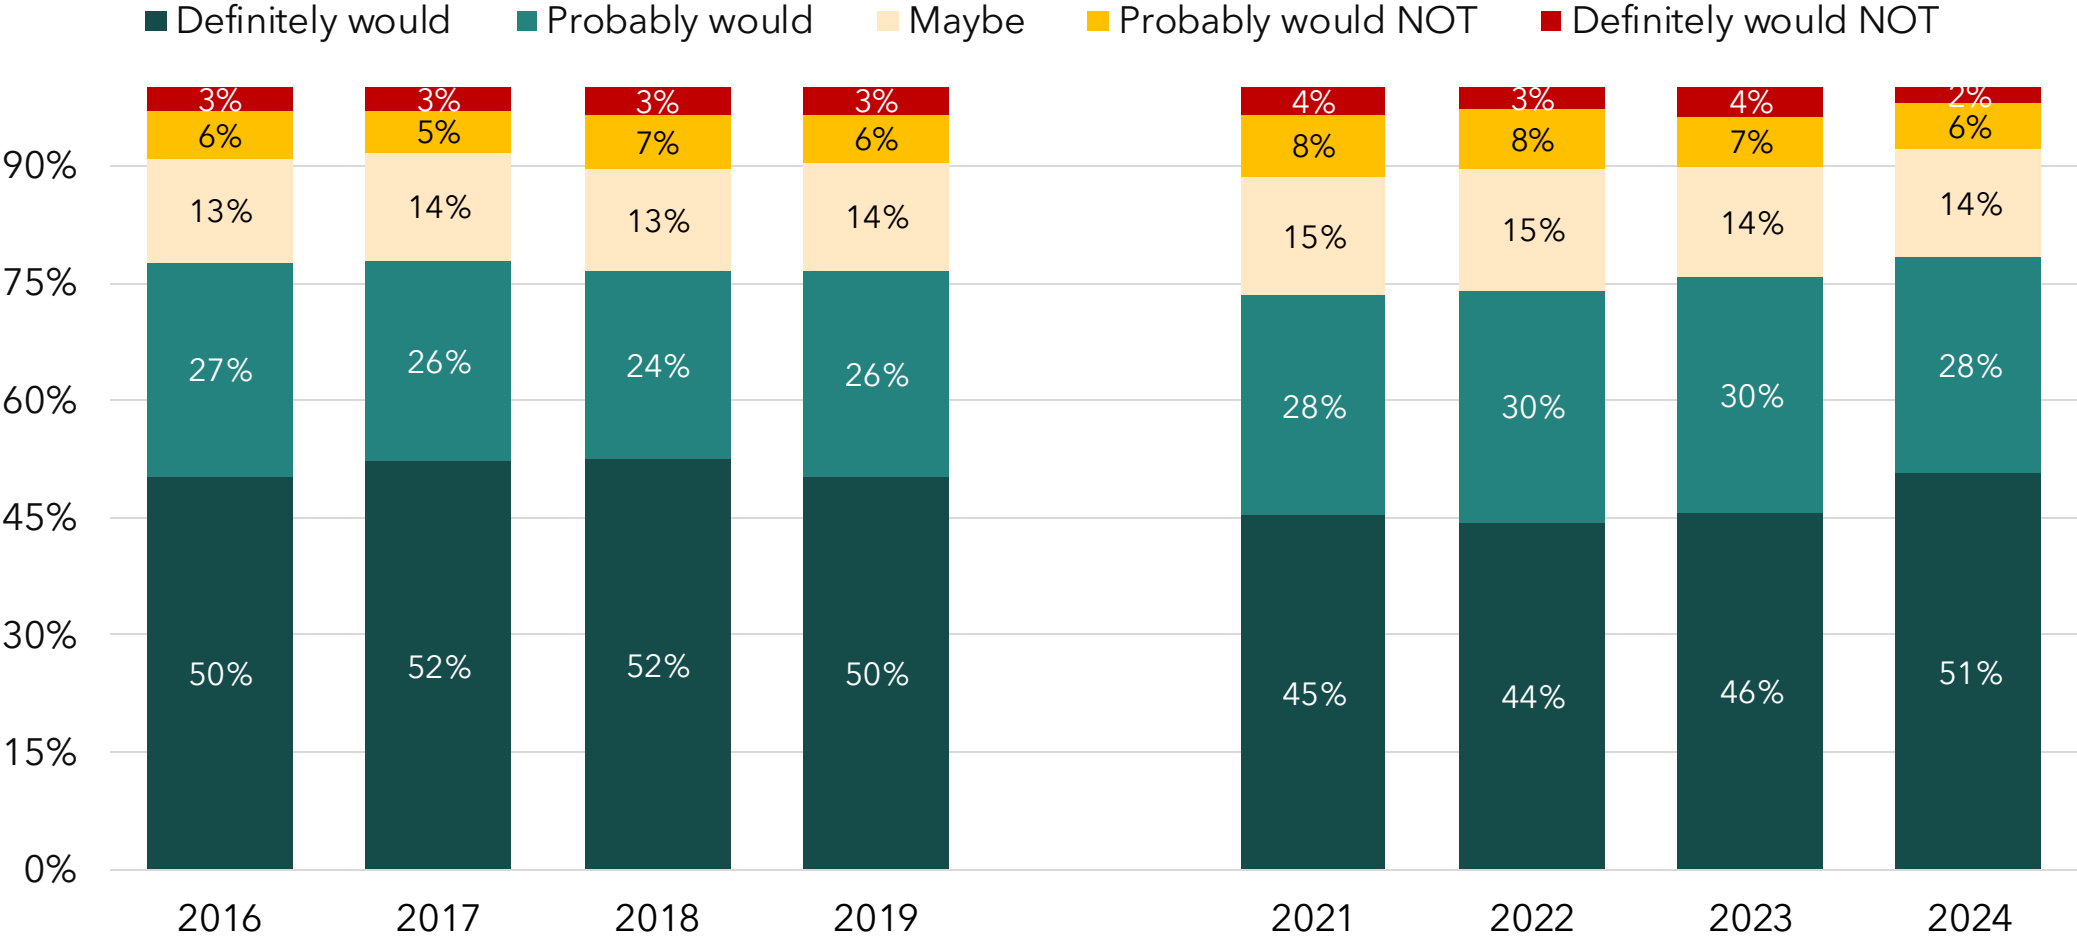

Would you encourage a high school senior who resembles you when you were a high school senior (same background, ability, interests and temperament) to attend Princeton?

## Five-point Likert Scale:

- Definitely would recommend: 5 points
- Probably would recommend: 4 points
- Maybe recommend: 3 points
- Probably would not recommend: 2 points
- Definitely would not recommend: 1 point

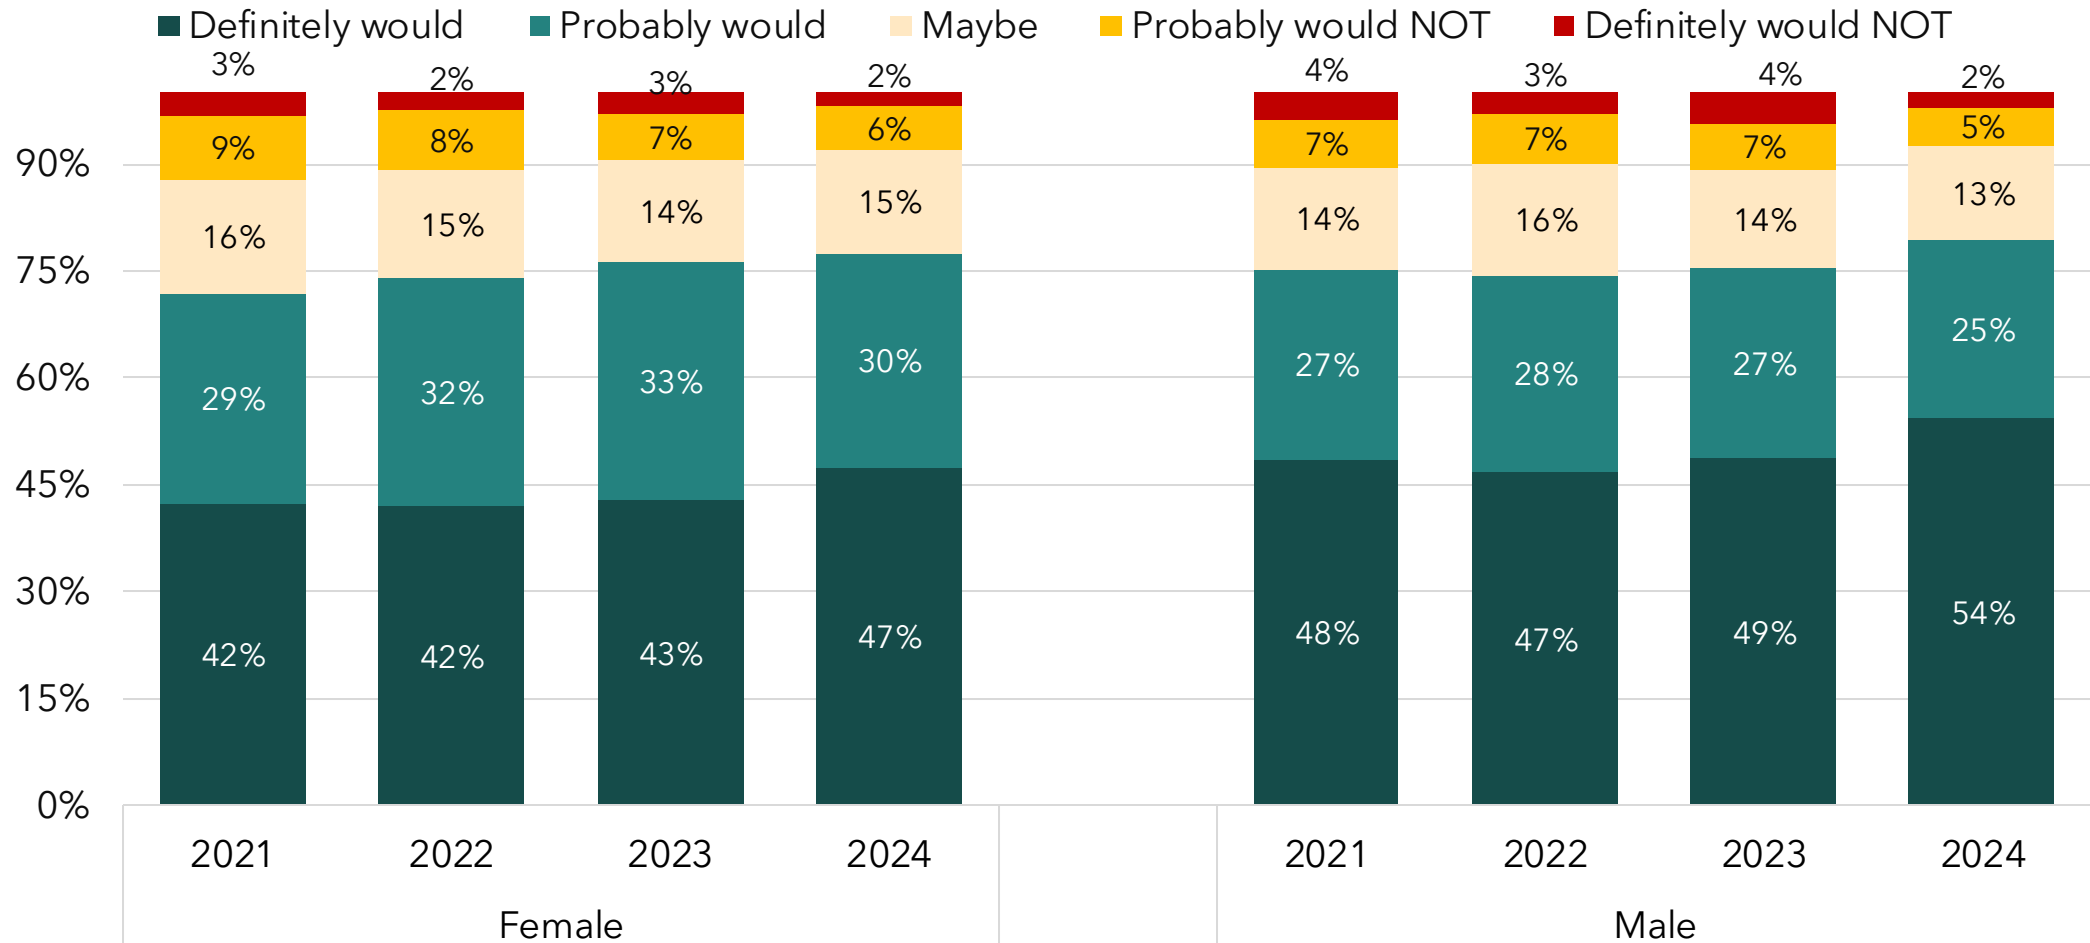

# Would you encourage a high school senior who resembles you when you were a high school senior to attend Princeton?

All undergraduates, 2016 to 2024

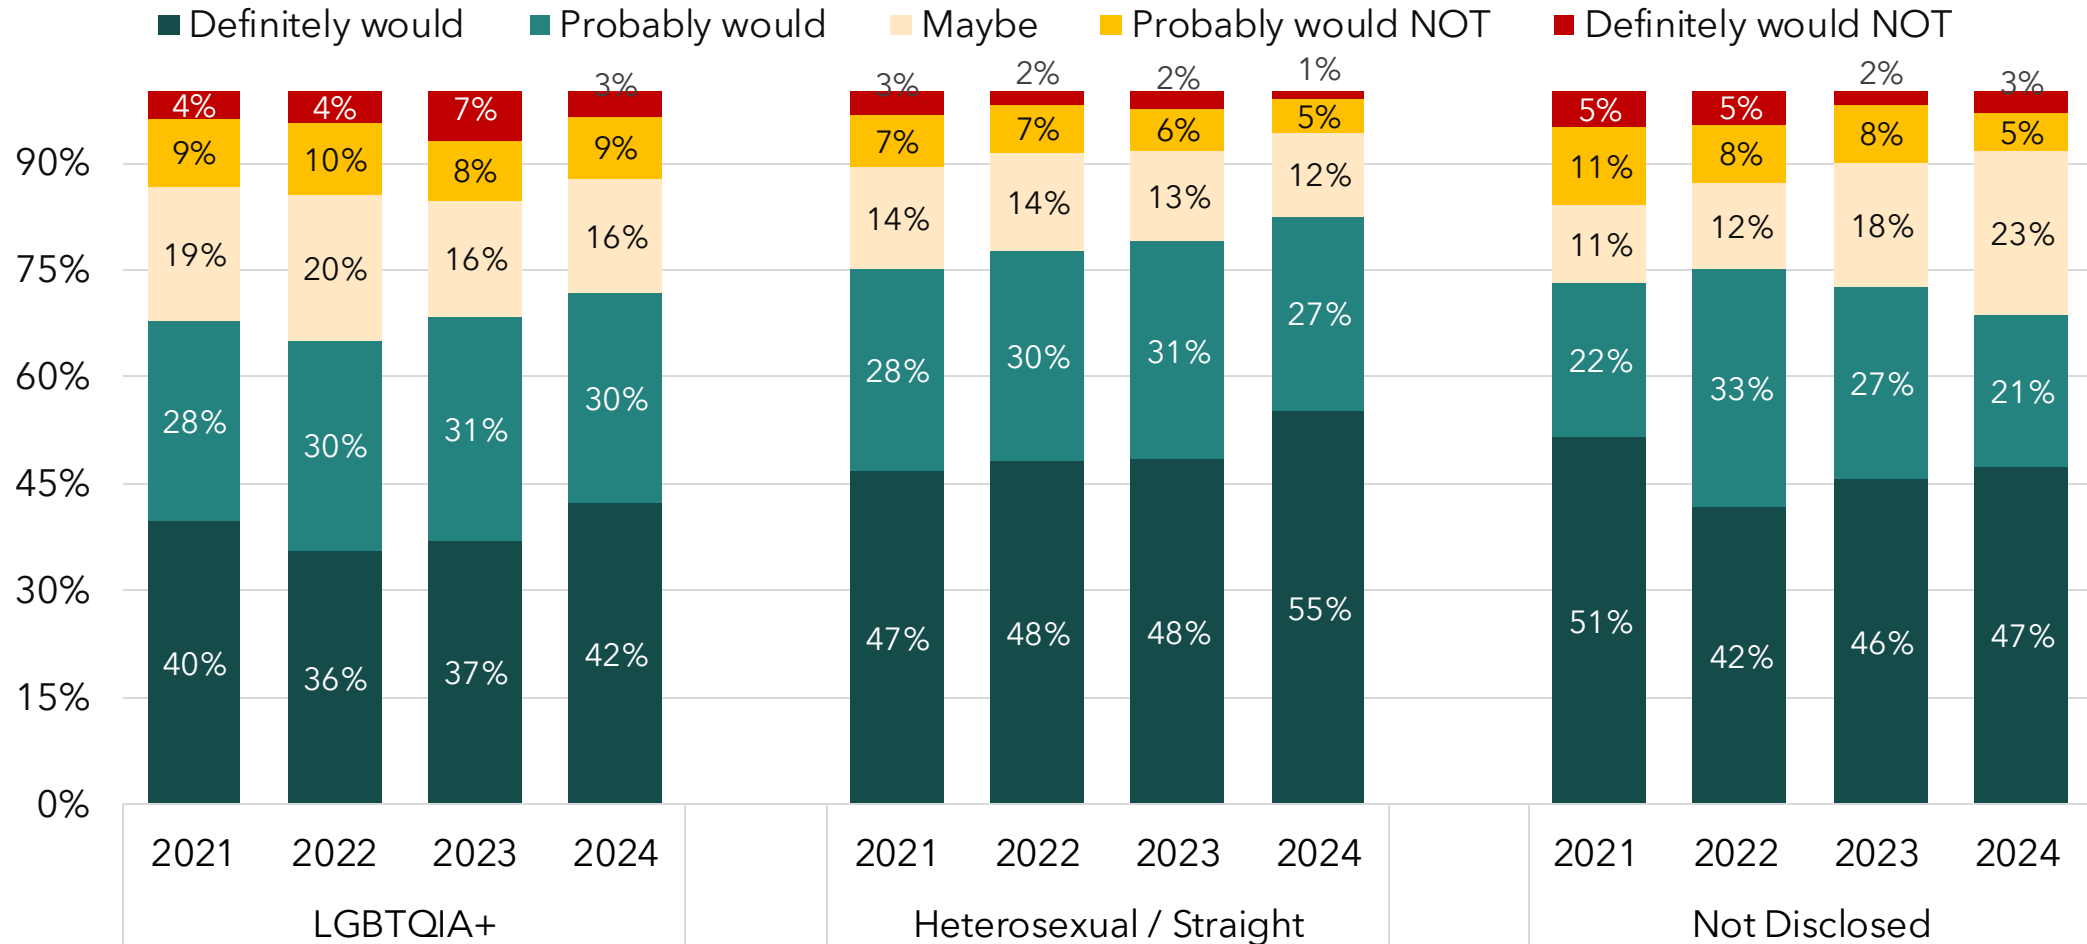

# Would you encourage a high school senior who resembles you when you were a high school senior to attend Princeton?

By gender/sex, 2021 to 2024

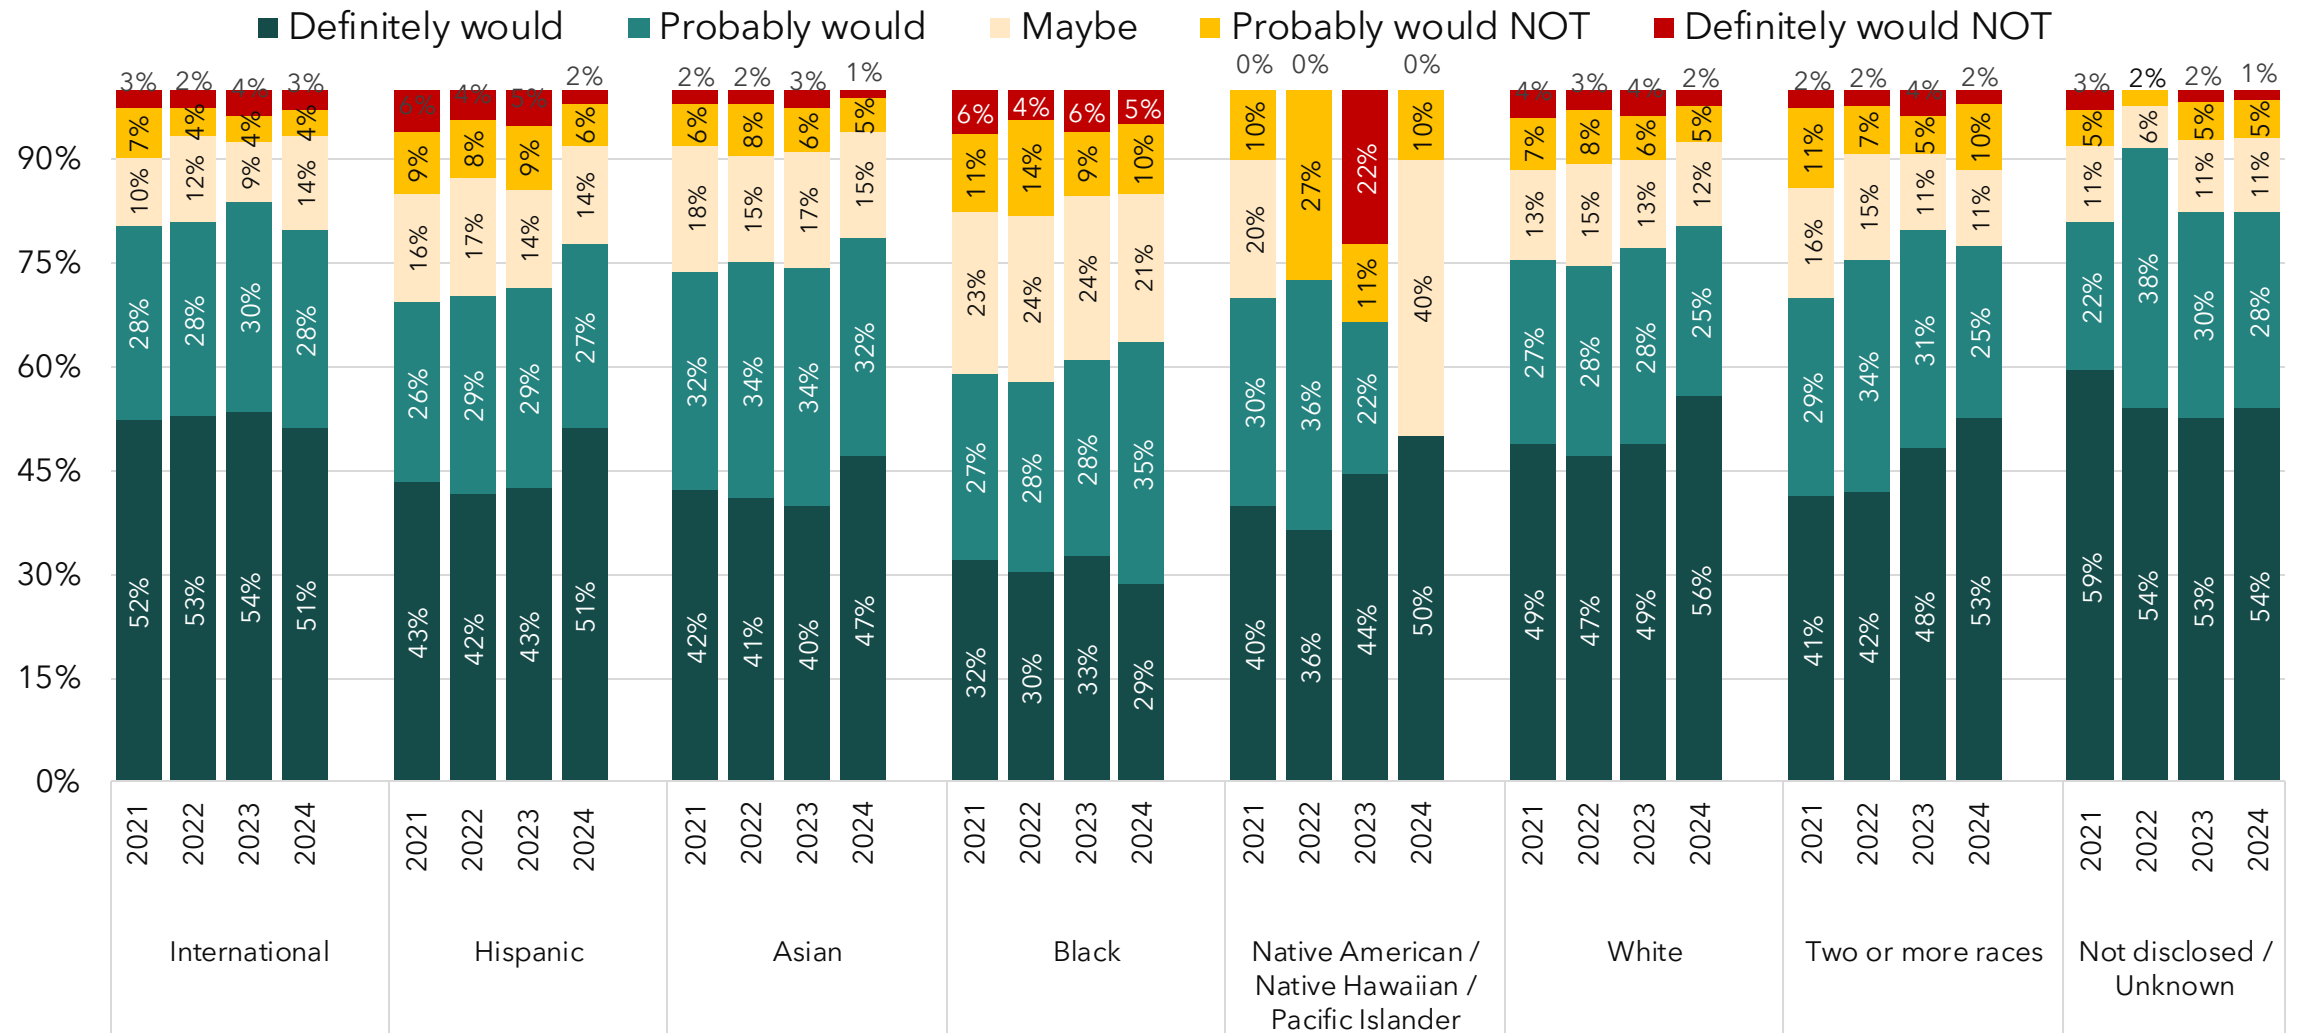

# Would you encourage a high school senior who resembles you when you were a high school senior to attend Princeton?

By sexual orientation and gender identity, 2021 to 2024

# Would you encourage a high school senior who resembles you when you were a high school senior to attend Princeton?

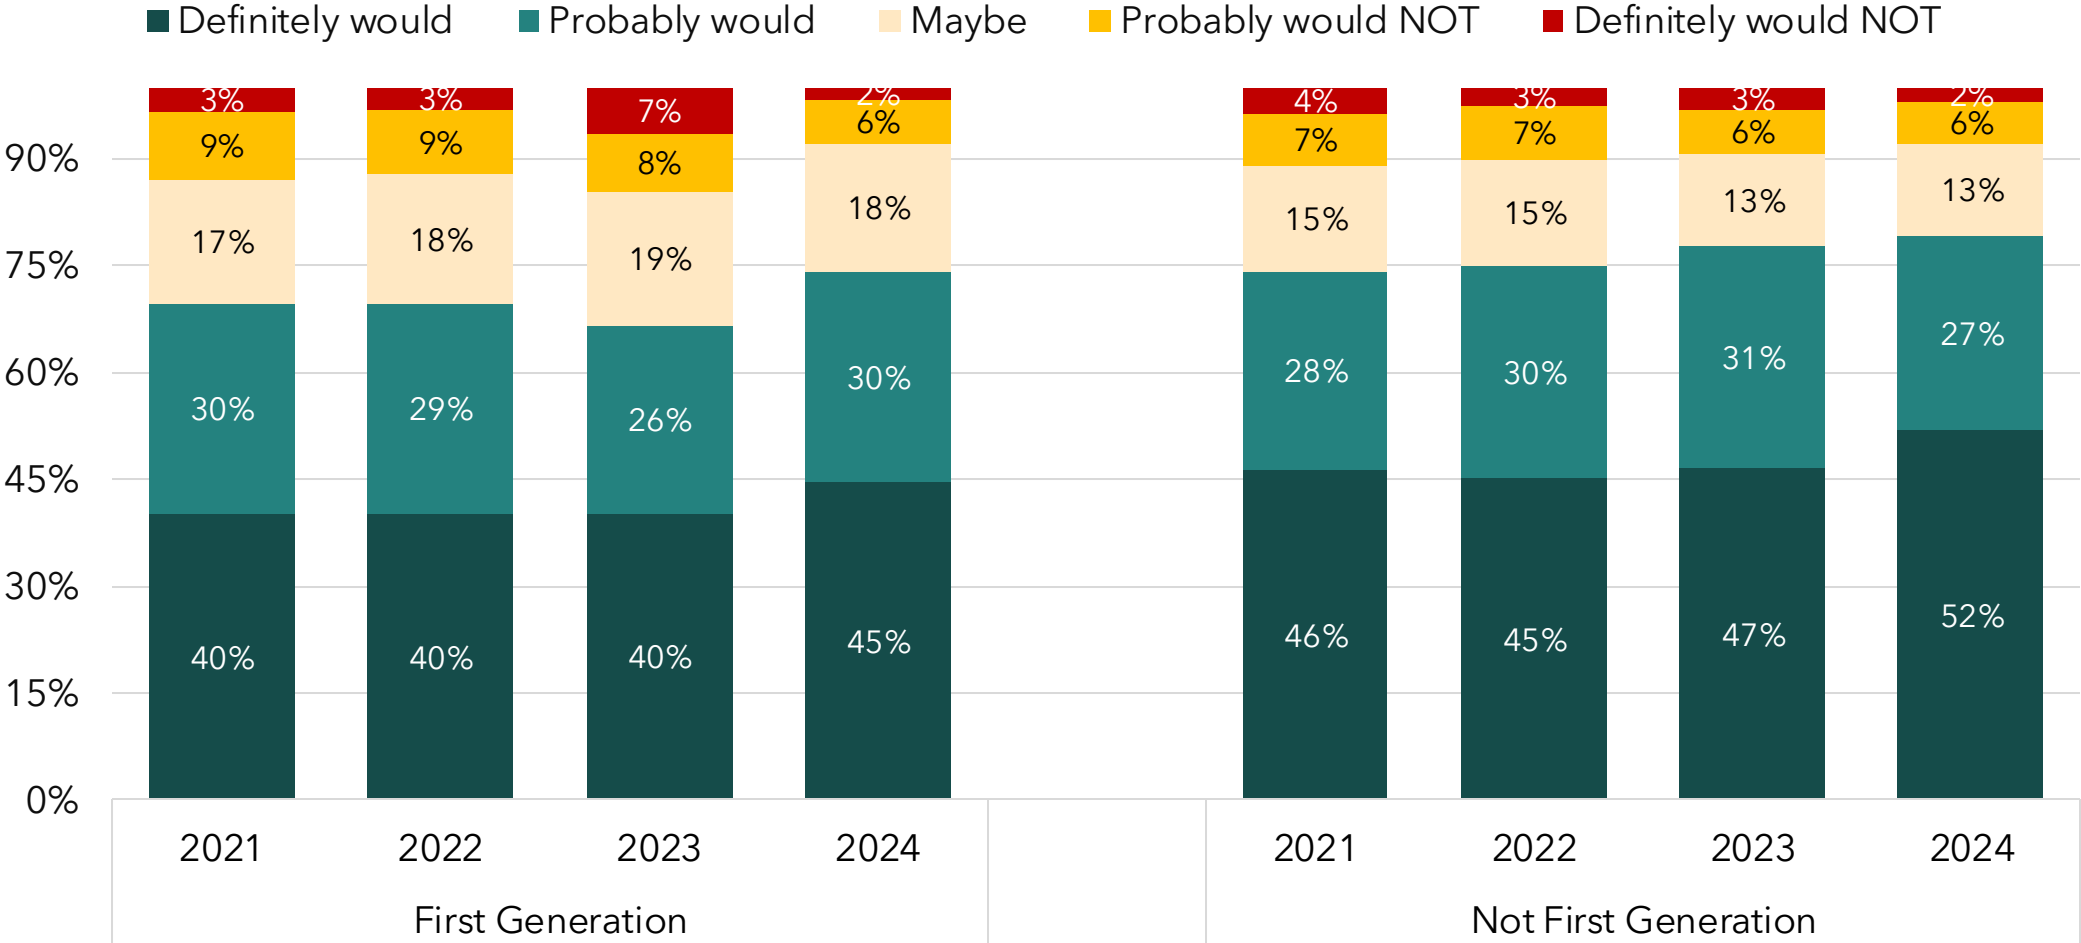

By federal race/ethnicity, 2021 to 2024

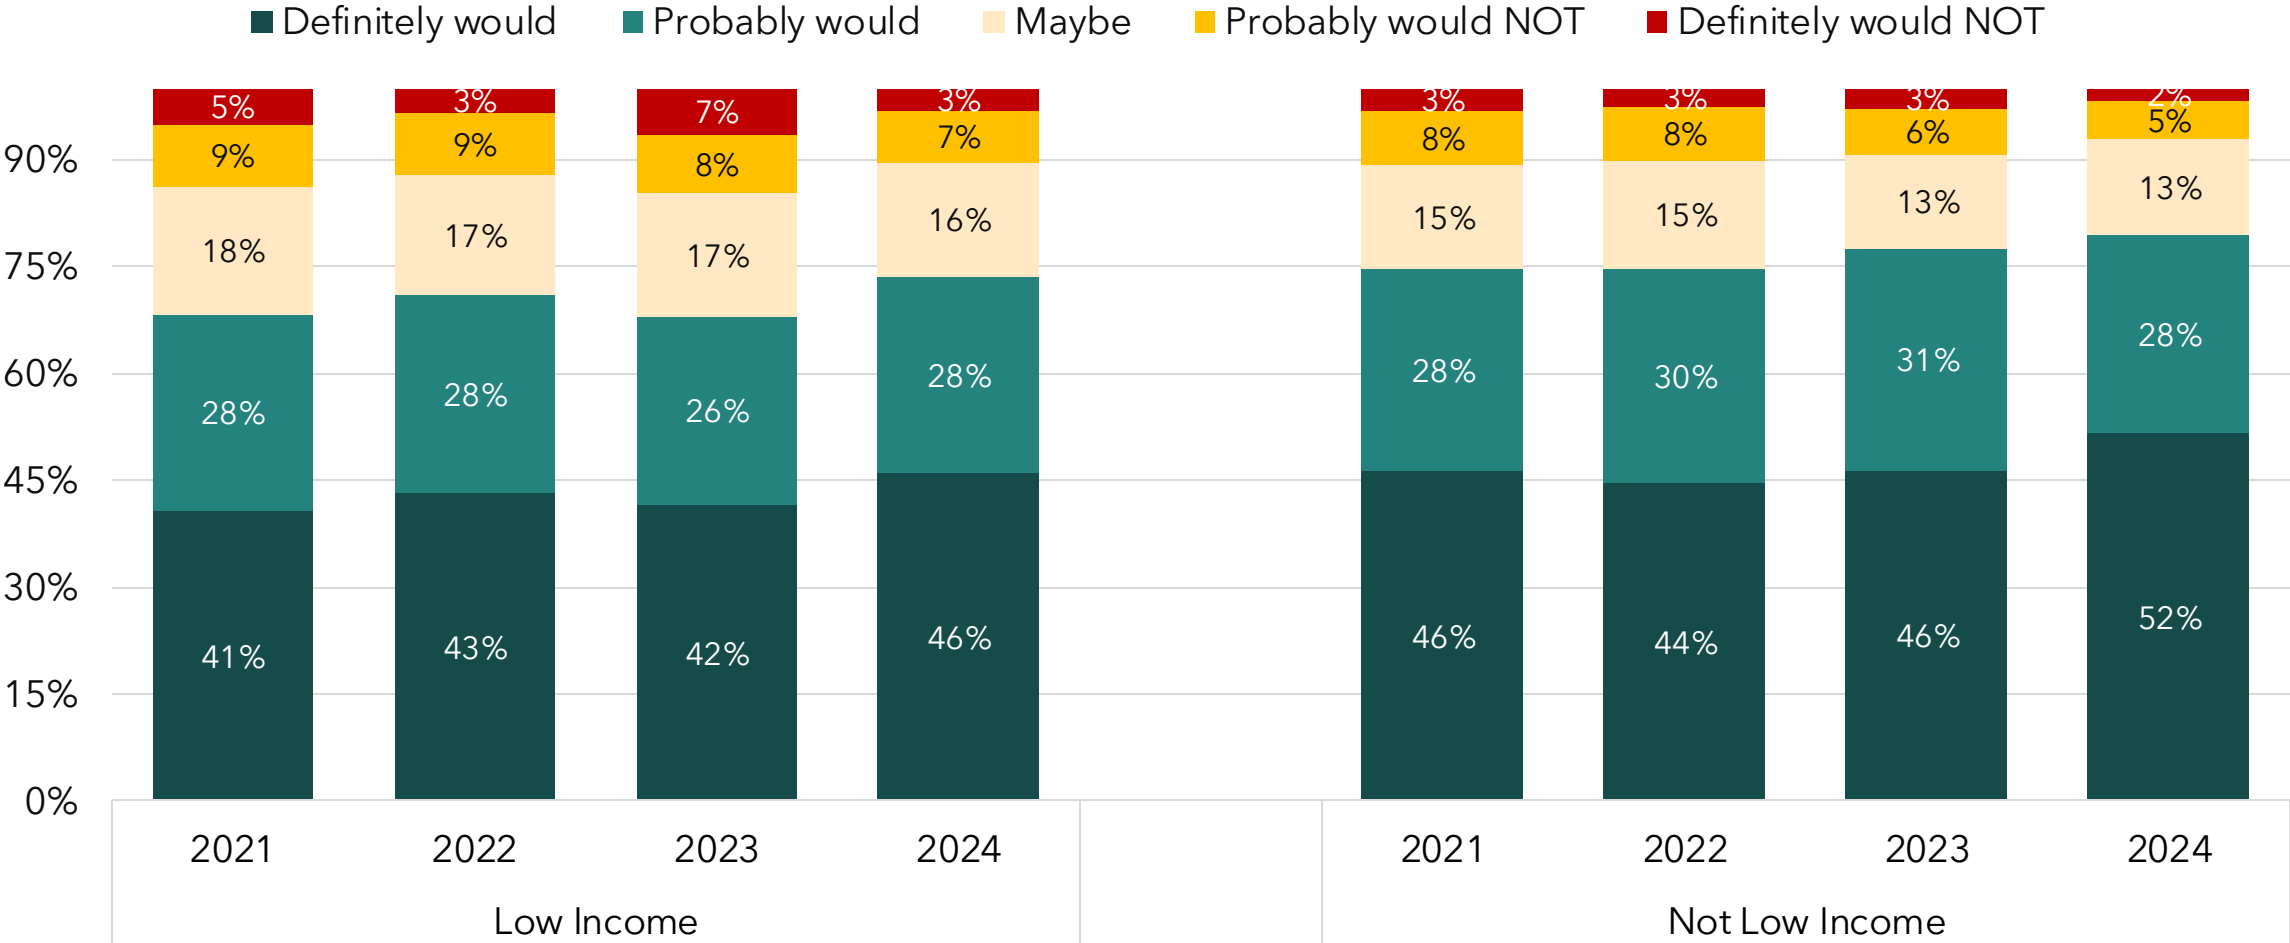

# Would you encourage a high school senior who resembles you when you were a high school senior to attend Princeton?

By first generation status, 2021 to 2024

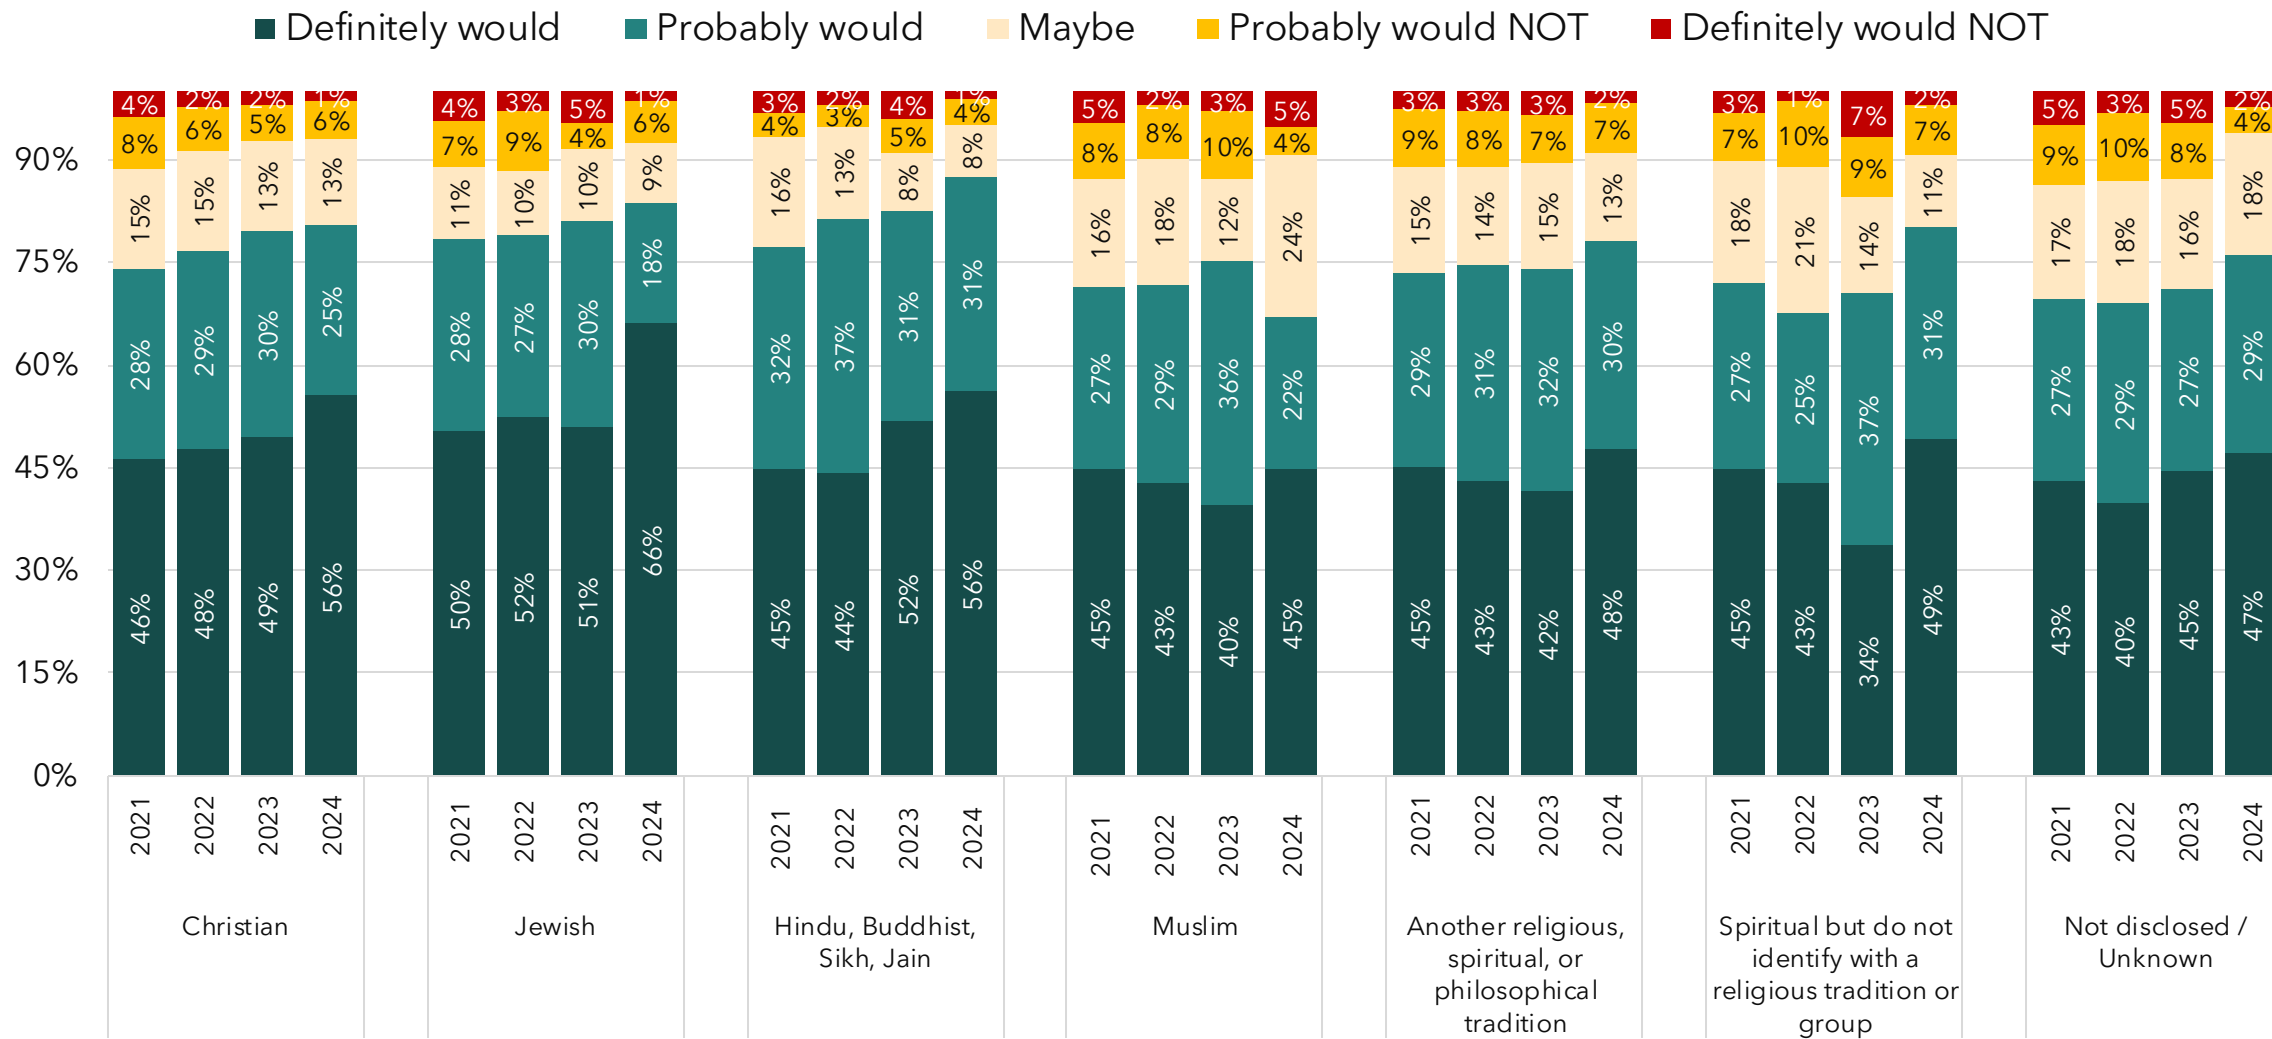

# Would you encourage a high school senior who resembles you when you were a high school senior to attend Princeton?

By low income status, 2021 to 2024

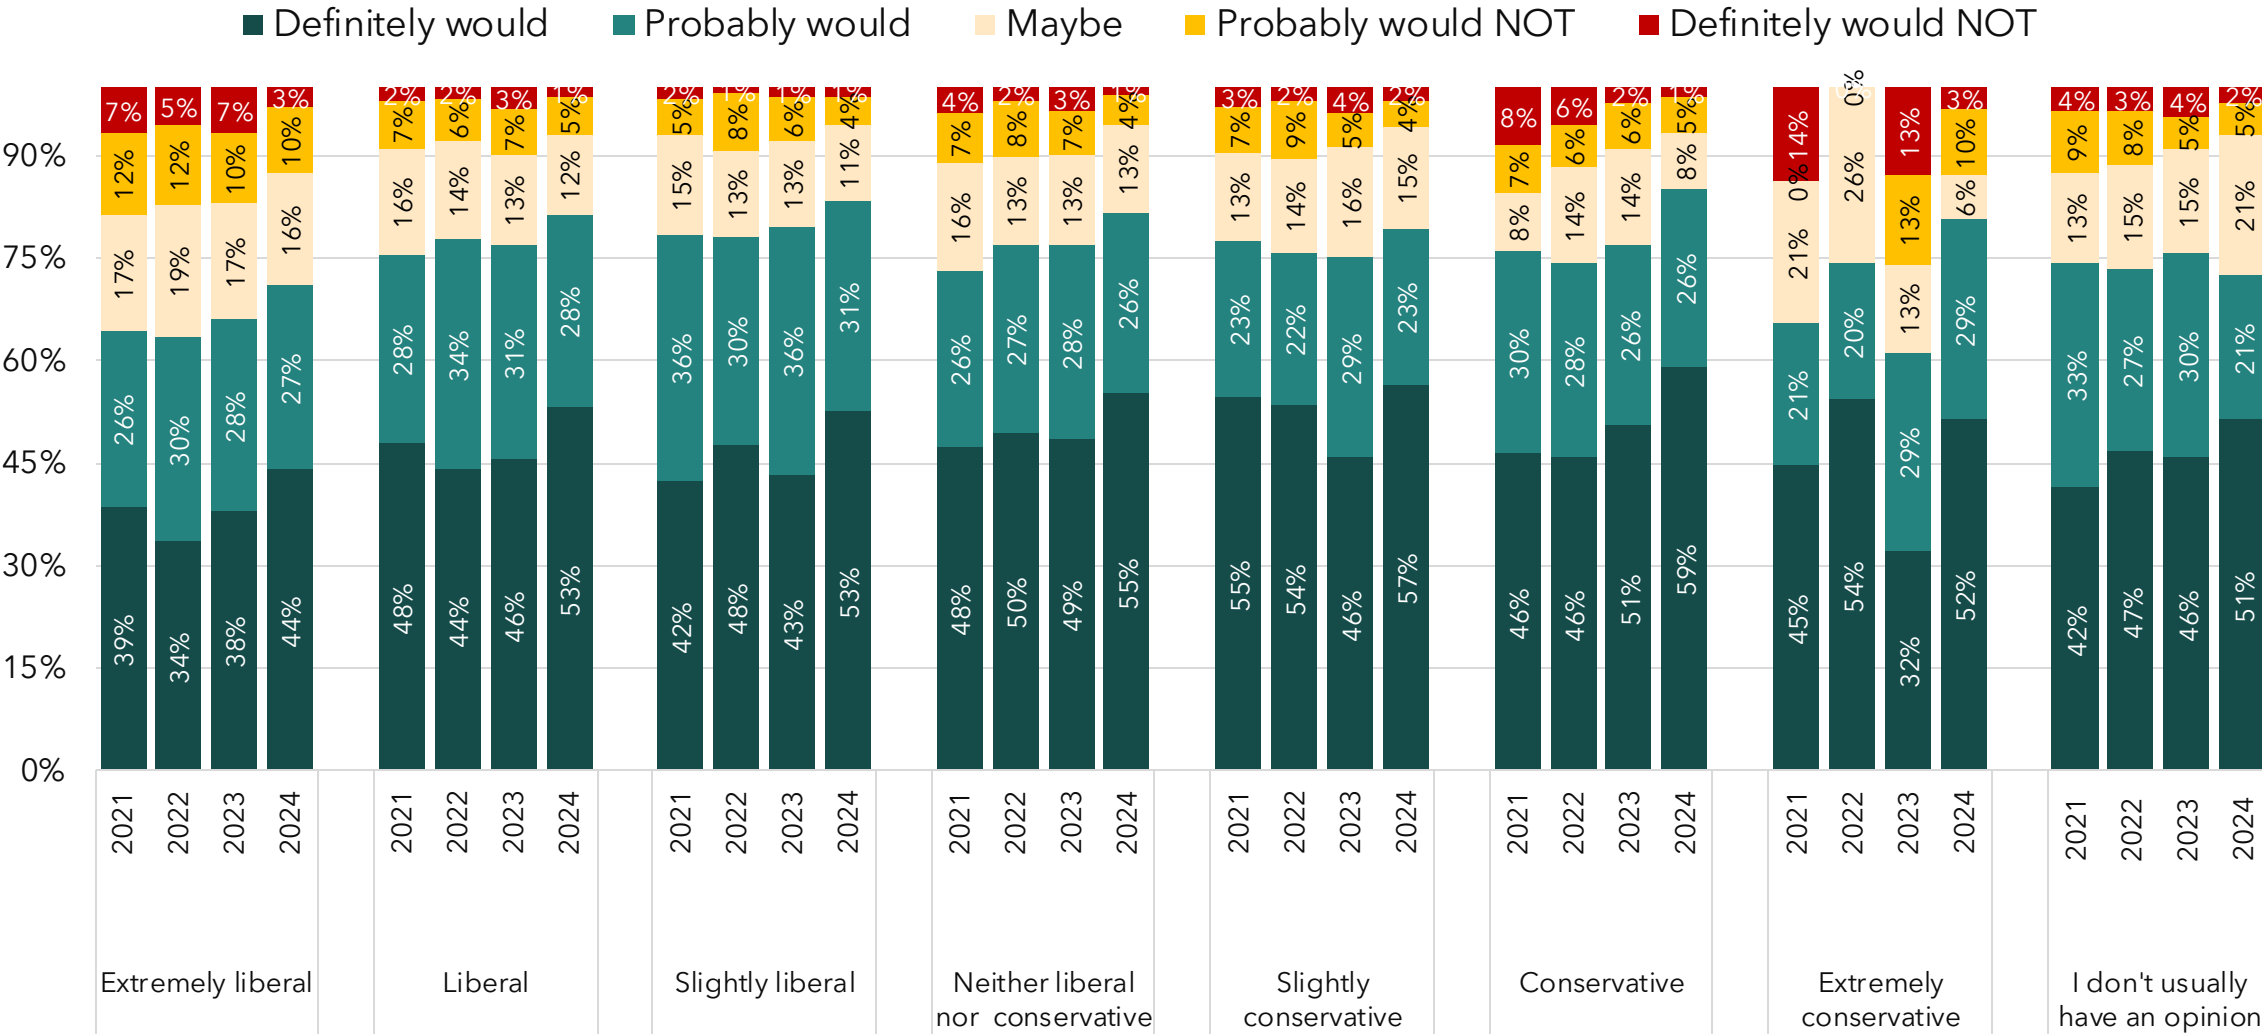

# Would you encourage a high school senior who resembles you when you were a high school senior to attend Princeton?

By current faith-based identity or religious preference, 2021 to 2024

# Would you encourage a high school senior who resembles you when you were a high school senior to attend Princeton?

By views on political issues, 2021 to 2024

# Sense of Belonging to the Princeton Campus Community

**Prompt:** Please tell us to what extent do you agree or disagree with the following statements:

- I feel like I belong to the Princeton Campus Community.
- I feel like I fit in with people Princeton Campus Community.
- I feel a part of Princeton Campus Community.

Each statement has a five-point Likert scale:

0—Strongly disagree; 1—Disagree; 2—Neither agree nor disagree; 3—Agree; 4—Strongly agree

The scale score is the sum of the 3 statement scores. Group mean scale score is presented. The error bars represent the 95<sup>th</sup> confidence interval (C.I.), which indicate that there is a 95% chance that the true group mean is within the error bars.

Range:

Minimum score of 0 indicates the weakest sense of belonging. Student strongly disagrees with all three statements.

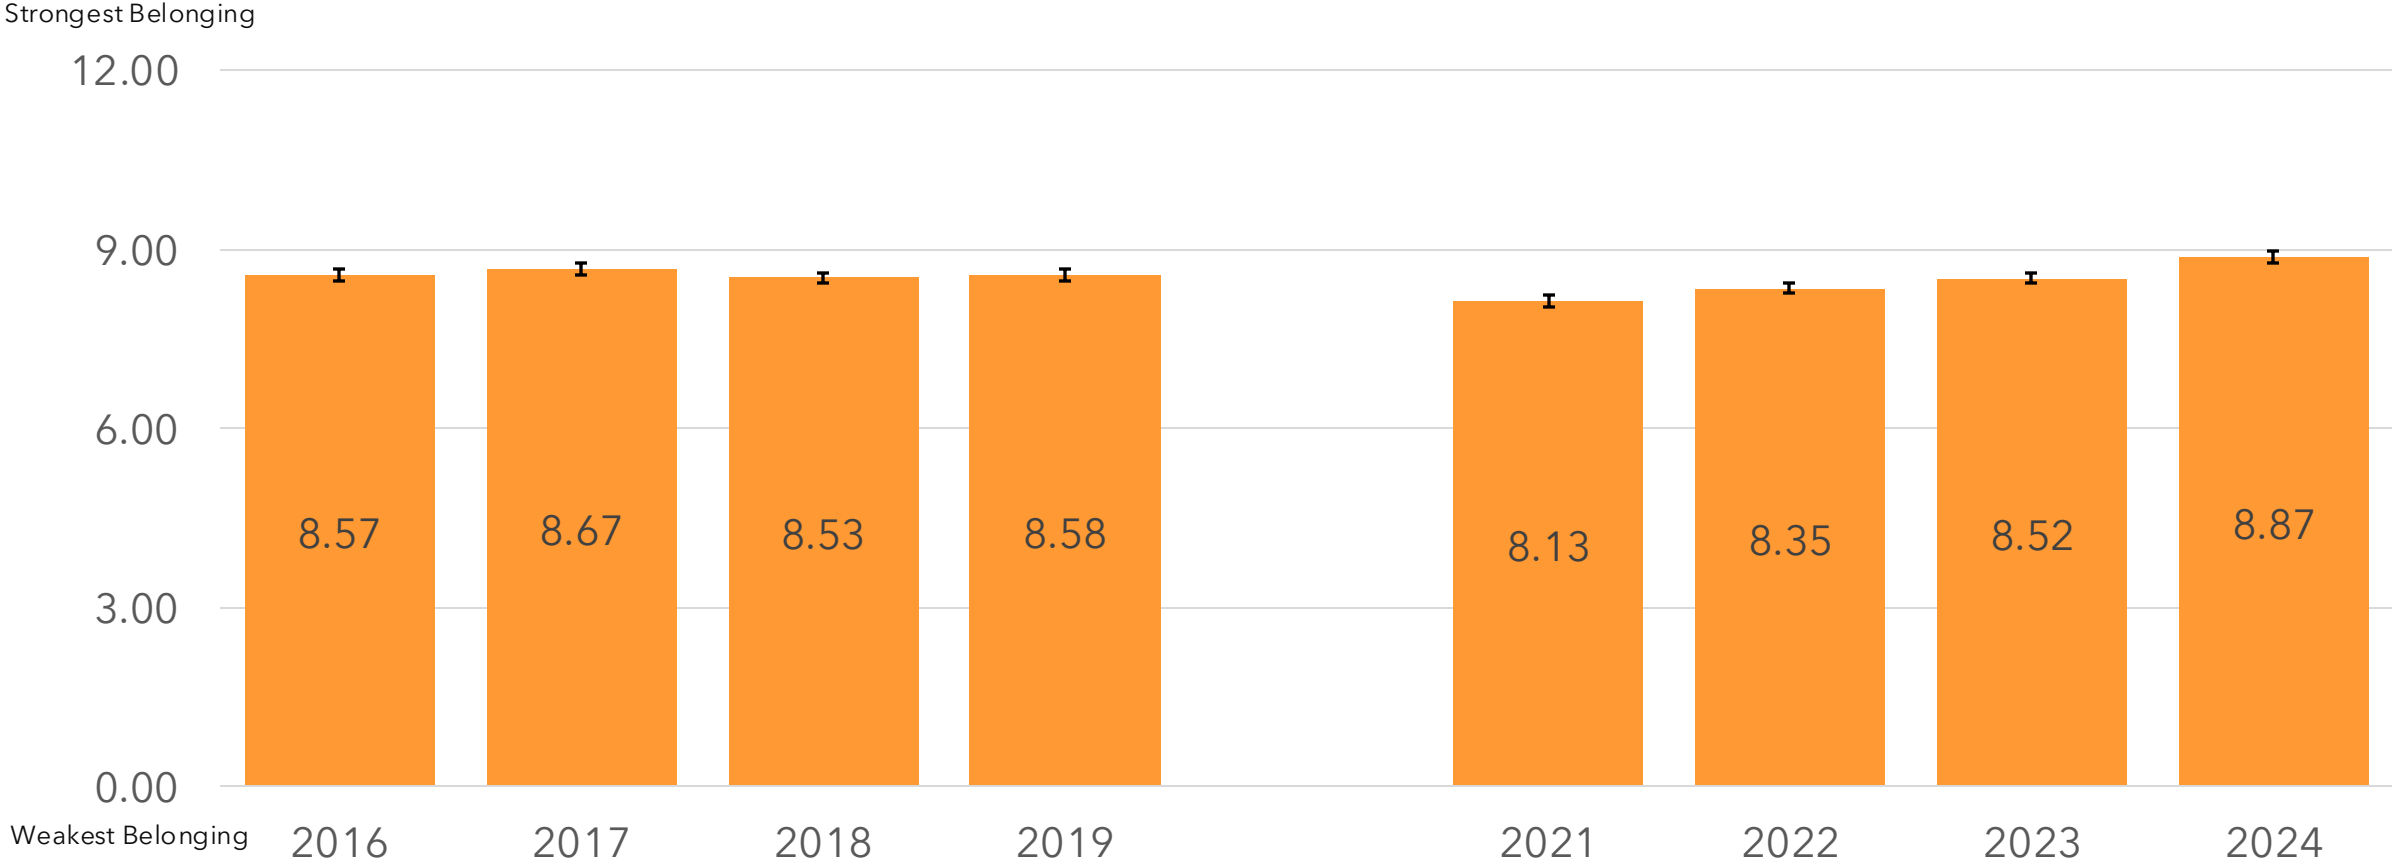

Maximum score of 12 indicates the strongest sense of belonging. Student strongly agrees with all three statements.

# I feel that students at Princeton treat one another with respect.

By current faith-based identity or religious preference, 2023 and 2024

# I feel that students at Princeton treat one another with respect.

By views on political issues, 2023 and 2024

# Definitions

## **Gender/sex**

Sex labeled as gender on forms used to collect data for state and federal reporting. **Female/Male/Unknown** are valid responses.

## **Sexual orientation and gender identity (SOGI)**

SOGI is based on student responses to two survey questions, which permit multiple selections. Students who identify as Heterosexual and or Straight are reported here as **Heterosexual/Straight**. Students who identify as a transgender person, a gender non-conforming person, a genderqueer person, a non-binary person, a two-spirit person, or consider themselves to be aromantic, asexual, bisexual, demisexual, gay, lesbian, pansexual, queer, same-gender loving or are questioning or unsure of their sexual orientation are reported here as **LGBTQIA+**. Students who chose not to answer the two questions are reported as **Not disclosed**.

## **First generation**

First generation college students are those students whose parent(s)/guardian(s) have not completed a bachelor's degree. Determined as the time of first enrollment.

## **Low Income**

Students whose family income is less than or equal to \$65,000 and whose parent contribution is zero. Determined as the time of first enrollment using the Princeton financial aid methodology.

# Definitions

## Federal Race/Ethnicity\*

Is based upon administrative data collected and formatted for federal reporting which requires each student to be reported in one category. The valid reporting categories are:

- **International:** Temporary residents of the United States regardless of Hispanic ethnicity or race.
- **Hispanic:** U.S. citizens and permanent residents of the U.S. who identify as Hispanic regardless of race.
- **Asian:** Non-Hispanic U.S. citizens and permanent residents of the U.S. who identify as Asian.
- **Black:** Non-Hispanic U.S. citizens and permanent residents of the U.S. who identify as Black.
- **Native American/Native Hawaiian/Pacific Islander:** Non-Hispanic U.S. citizens and permanent residents of the U.S. who identify as Native American/ American Indian /Alaskan Native or as Native Hawaiian/Pacific Islander.
- **White:** Non-Hispanic U.S. citizens and permanent residents of the U.S. who identify as White
- **Two or More Races:** Non-Hispanic U.S. citizens and permanent residents of the U.S. who identify with two or more races.
- **Not Disclosed/Unknown:** Non-Hispanic U.S. citizens and permanent residents of the U.S. who chose not to answer the Hispanic ethnicity question nor the race question.

\*As defined by OMB Statistical Policy Directive No. 15 published in 1997. On March 28, 2024, OMB published revisions to Statistical Policy Directive No. 15. At this time, the new standards have not been implemented.

# Definitions

## **Current faith-based identity or religious preference**

Is based upon a survey question having 46 response categories that have been summarized and reported here as:

- **Christian:** Includes students who identified with one of 29 listed Christian denominations or indicated that they identified with another Christian denomination that was not listed.
- **Jewish:** Includes students who identified their faith-based identity or religious preference as Jewish.
- **Hindu, Buddhist, Sikh, or Jain:** Includes students who identified their faith-based identity or religious preference as Hindu, Buddhist, Sikh, or Jain.
- **Muslim:** Students who identified their faith-based identity or religious preference as Muslim.
- **Another religious, spiritual, or philosophical tradition:** Includes students who identified as Pagan, Secular Humanist or some other religious or spiritual tradition. The category also includes students who identified as agnostic, atheist or some other philosophical tradition.
- **Spiritual but do not identify with a religious tradition or group:** Includes students who marked “no particular religion” and those who marked “spiritual but do not identify with a religious tradition or group.”
- **Not disclosed:** Includes students who marked “none of the above” categories and those students who did not answer the question.

# Definitions

## Political Views

Is based upon student responses to the following survey question:

In terms of political issues, how liberal or conservative are you in an American context?

- Extremely liberal
- Liberal
- Slightly liberal
- Neither liberal nor conservative
- Slightly conservative
- Conservative
- Extremely conservative
- I don't usually have an opinion on political issues.

## Participation All Undergraduates, 2016 to 2024

		2016	2017	2018	2019	2020 <sup>3</sup>	2021 <sup>4</sup>	2022	2023	2024 <sup>5</sup>
Percent of student who:	Began survey <sup>1</sup>	64%	72%	77%	75%		83%	78%	77%	72%
	Completed survey <sup>2</sup>	54%	62%	66%	63%		72%	65%	60%	47%

	Began survey	3332	3737	3992	3930		3789	4080	4207	4010
	Completed survey	2824	3242	3418	3313		3294	3410	3324	2631

Notes:

<sup>1</sup> Began survey indicates student provided an answer to the first question on the survey.

<sup>2</sup> Completed survey indicates student answered one or more of the core demographic question at the end of the survey.

<sup>3</sup> University moved to remote instruction two weeks prior to the administration of the YEA/Senior.

<sup>4</sup> Approximately 700 students took a year leave of absence due to the Covid pandemic. Students returned to campus spring term under social spacing conditions that restricted group activities.

<sup>5</sup> To support a new campus initiative, several one-time modules were inserted within the questionnaire that increased the time required to complete the questionnaire by 15 to 20 minutes. This reduced the number of complete submissions.
